British Business Men and Capitalists Left Last Night on Way to the Coast.

REPRESENT IMMENSE AMOUNT OF CAPITAL

Visitors Expressed Warm Appreciation of the Welcome Accord- Them by Edmonton.

Edmonton's guests left the city at midnight last night over the C. P. R. for Calgary. The sixty-four British business men, and manufacturers, who were accorded the freedom of the city yesterday continued their tour to take in the southern cities of the province. During their sojourn in Calgary, they will be entertained in the same manner which greeted their visit to the capital.

The delegation was much impressed with the possibilities of the city and district. The Canadiantour is being made with the object of studying the needs of the Canadian west and bringing it into a closer relationship with the old land. The party represents a quarter of a billion dollars of British capital and employs fully 100,000 people.

The personnel of the party is as follows: W. Leonard Palmer, Jas. N. Vickers, Geo. T. Neilson, Fredk. Dowson, A. B. Balmford, D. McLugon, Rowland Rank, Alfred Moorehouse, James H. Annandale, Alfred Whaley, Charles Robb, J. S. Locks, G. F. Baracle, S. A. Hudston, Mjr. G. F. T. Leather, Thos. Gadsby, A. F. Redfern, Thomas Brown, J. E. Duffus, Thomas Davidson, Geo. Mansfield, G. Hethey, J. H. Stead, J. C. Burlinghom, Chas. P Lidbetter, Geo. W. Gooodchild, E J. Clark, Olive E. Howell, Maj. E. J. K. Savage, John Stirling, John Davies, J. C. Lauter, A. Sellers, Edward J. Caley, F. J. Hook, Nevill H. Everitt, Boyd, Mr. Palmer, Edwin F. Fardon, Edward Andrewes, John Fison, F. A. Bayness, O. B. Stanion, J. Stark Browne, B. J. Redman, George Mason Walt. Bartholomew, Lancelot Lupton A. M. Thompson, G. W. Beeson, E. T Boardman, S. Warwick, Capt. L. Webber, Frank Shackle, Jas. Deuchar.

The three ladies of the party are Mrs. W. Leonard Palmer Mrs. G. F. T. Leather and Mrs. G. Heathey.

Visit Points of Interest

Following the banquet at the Corona Hotel, the afternoon was taken up with trips to points of interest in the city. Manufacturing plants were visited while the party was treated to a view of the large amount of building operations at present going on in the city. This phase was of particular interest to the contractors and architects in the party who expressed their amazement at the immense strides which the city is taking in the re-placing of its business district by substantial blocks.

Those interested in agriculture in the party were taken through the surrounding country. The time of the year was particularly opportune for such a trip as the country is showing evidences of one of the greatest crops in the history of the west.

During the remainder of the western tour the British delegation will visit Calgary, Banff, Glacier, Vancouver and Victoria. The return trip will be made by way of Laggan, Calgary, Lethbridge, Medicine Hat, Moosejaw and Brandon to Winnipeg. The party will sail from Montreal for England on July 20th.

Plans Indefinite.

No member of the party was prepared to state specific undertakings to be brought about in Canada by firms represented. They are seeing the whole Dominion at express train rate and they realize they are standing on the threshold of the great new west with its almost unexplored potentialities, and they want to commit themselves to no course until they have first seen all there is to be seen and heard all there is to hear. Announcement will be made officially later as to the undertakings resultant on the tour.

Maker of Dreadnoughts.

A dreading-nought maker of dreadnoughts, James N. Vickers, easily towers great among his fellow-travelers now making the trip across Canada. A man of almost insignificant physical proportions with locks snowed and appearance rendered mild by the inclemency of some sixty winters, Mr. Vickers would at first glance appear least among his fellow travellers. But with a glance like the glint of a gun barrel, in his first look at a person, quite unconsciously he secures dominance by sheer force of personality. One realizes that here is the man in all England that Kaiser Wilhelm most fears and not without cause, for here is the bull-dog Englishman at his best—a good-natured fellow, yet ready at a moment's notice to spring to the breach of his guns, or to the melting pot to make more.

Mr. Vickers is a great believer in armed peace as preventative of war. Speaking on the Anglo-German situation, he states that Great Britain's naval strength is the only thing which prevents war between that country and Germany. He also granted the position taken that relations between Great Britain and Germany were strained and no better than represented in British despatches. Mr. Vickers is firmly convinced that war can never come while Great Britain maintains her present standard of two power naval strength.

Authority on War.

These admissions coming from the mouth of a man who is most intimately acquainted with the marine and military situation of Europe, who hears the growlings of the dogs of war and who realizes, as few others do, the utter deadliness of a war in modern times, carry great weight. Mr. Vickers' firm manufactures most of the British heavy ordinance and dreadnoughts. Today they have two of these modern floating fortresses on the stocks for the British government.

Reasons for Trip.

W. Leonard Palmer of the London Financial News staff, is piloting this party across the Dominion. His reasons are many. First and foremost he had made the trip himself previously and was so impressed with the possibilities of this great country that he resolved that industrial England should see it also and so come to realize what a wonderful and richly resourceful young country was awaiting them to go in and possess, in part, its trade. Again Canada is prosperous and potentially very powerful. It is a country England should get into closer trade relations with. British business men seeing the country for themselves would know just what was desirable here from their point of view. Still further the great masses of the British public, the investor, the home-seeker and the wellwisher toward the empire would be greatly impressed by the report of such a party of tourists as are now assembled in this city. Those are reasons why Mr. Palmer organized the present tour across this country. He expects great industrial and imperial good to result from such movements.

Opinions of the Britishers as they see this country, some for the first time and some after months or years of progress, were very favorable. They expressed themselves as dazed, delighted, surprised beyond expression at the wonderful development of this country.

George Mason, educational adviser of the Reeves and Sons company, dealing in artists' and engineering drawing equipment, says: "We have enjoyed our trip very much indeed. It is difficult to take in all we see, but this country is simply bound to go ahead. I see tremendous development throughout the Dominion since my last visit in 1910.

E. J. Hook, of Messrs. Chivers and Sons, jams: "Your country is an eye-opener to us. It is hard to estimate its vastness or resources. We are only seeing it cinematographically now, but when we get home and study our impressions, notes and pictures we shall be able to decide just what we are going to do.

J. E. Fuflie, of London, art printers: "With Australia I would place Canada at the very front rank among the colonies. Canada has a more immediate future, I think, than Australia. That country needs to conduct a vigorous immigration policy such as you have."

J. C. Burlingham, chairman of the J. Brimsmead and Sons Pianoforte Manufacturing company: "Your winters here are against you, but you have a magnificent country. Your great trouble from a manufacturing point of view is the labor situation. While you have a tariff wall, of course, you will have high wages, but the cost of living will rise correspondingly. In Edmonton you have good possibilities for cheap power. Solve your labor troubles and you have an industrial future before you."

MONTREAL CHURCHES TO TRY SPECIES OF UNION

While Minister of One Denomination is Away on His Holidays His Congregation Will Unite With Another —Eight churches to Close Down.

Montreal, June 28.—A species of church union will have four distinct trials in this city this summer, members of congregations of one denomination worshiping with church goers of another different upbringing.

No less than eight city churches will be closed down for one month while their pastors take a vacation and in each case matters have been so arranged that a church of different denomination located in the same vicinity will temporarily undertake to attend to the spiritual wants of the congregation whose place of worship is for the time unused.

On the re-opening of the church for the visitors the pastor who has been doing double duty will take his vacation and his congregation will worship under the pastor of the re-opened church who will by that time have returned from his holiday trip.

News-Telegram Changes Hands.

Calgary, June 28.—The News-Telegram, evening paper of this city, which for the past two years has been published by Jesse Dorman, has been purchased by a company of western newspaper men, of which G. M. Thompson and C. E. Tryon, formerly of the Saskatoon Capital, are the promoters. The new owners assume control of the paper on July first.

BOTH PARTIES WORKING HARD

Liberals Have Candidates in all Saskatchewan Districts; Conservatives Lack Two.

LIBERALS AGREE IN EAGLE CREEK RIDING

Premier Scott Has Spent Week in Swift Current—Haultain at Weyburn Last Night.

Regina, June 28.—The second week of the Saskatchewan elections closes with both parties working like beavers, both sides talking confidently, and admitting privately it is impossible to tell how the elections is going. The rals claim that the reciprocity feeling is strong, that the seventeen thousand majority of last September is still on their side. The conservatives claim that reciprocity is dead and that there is a strong wave of sentiment towards the conservative party. As a matter of fact, the province is so large and means of communication are so slow that it is difficult to as readily feel the public pulse as in eastern Canada.

The liberals have now candidates in fifty-two districts which will vote on July 11th. There are straight conservative candidates in fifty seats.

In Moosejaw country, Fred W. Green, secretary of the Saskatchewan Grain Growers, is standing as a conservative. In Vonda constituency there are two independents in the field, both opposed to the government, as well as the liberal candidate. The conservatives are letting them fight it out between themselves.

The only change in the situation during the week was in Souris, where a Grain Growers' candidate, Nelson Simpson, is in the field, and Eagle Creek, where the are two liberals running. Page Ridout and Geo. Harris were both canvassing and it looked as if J. A. Laycock, the conservative would win.

A new convention was called at Laurel and the two candidates fought it out in the convention, Harris winning. The liberals claim that they will now win the seat, while the conservatives say that the breach in the liberal ranks is such that it cannot be healed.

Outside the charges of the conservatives that the electorate lists have been mutilated it has been a week without sensation.

Hon. Walter Scott has devoted the week to his own riding, Swift Current, speaking in the town of Swift Current tonight. Hon. F. W. G. Haultain completed a week's campaign with a meeting at Weyburn tonight, which will be followed by another in Francais constituency at Heward tomorrow night.

MONTREAL STRIKE DANGER IS PAST

Three Year Agreement Between Stone Masons, Bricklayers and Builders —Men Get an Increase in Pay and Saturday Half Holidays.

Montreal, June 28.—Danger of a strike in Montreal of the stone masons and bricklayers is past, as today an agreement was signed between the representatives of the unions and the representatives of the builders exchange.

The agreement is for two years, dating from July 1st, 1912, up to and including June 30th, 1914 and three months notice is to be given by either party before any alteration takes place. The men of both organizations receive an increase of 5 cents an hour and are to have Saturday afternoon present the bricklayers deceive free during July and August. At present the bricklayers receive 59 cents an hour.

This is to increase to 55 cents and the rate on sewer and viaducts is to be 60 cents. The stone masons at present get 45 cents an hour and this is increased to 50 cents.

On their part the unions drop the demand for the foremen to be members of the unions. A joint arbitration committee is also formed to inquire into all matters of disputes during the term of the agreement.

MANY AUTOISTS BROKE LAW.

Maximum Allowed by City By-law Is Nine Miles, but Average Was Sixteen.

Montreal, June 28.—As a preliminary move in an anti-speeding campaign, following numerous automobile casualties during the past ten days, a local paper today sought out two experienced timers, and arming themselves with stop watches placed them at Victoria Square.

The men remained on duty from noon until 1:30 and reported the passage of forty-six machines. The slowest was timed at twelve miles an hour and the fastest at twenty-two. The average was sixteen.

The maximum allowed under the civic by-laws is nine. The square is in the heart of the business section of the city and the streets along which the autos ran are among the busient in Montreal.

MINISTER AND MEMBER EXPLAIN THE NEW ACT

Hon. Chas. Stewart and Dr. Campbell, M.P.P., Address Meeting of Farmers at Ponoka on the New Municipalities Act.

Ponoka, June 27.—Hon. Chas. Stewart, minister of Municipalities, and Dr. Campbell, M.P.P., addressed a meeting of farmers in Ponoka on Monday, explaining to them the new Municipalities Act. In the audience were a number of councillors and secretary-treasurers of the Local Improvement Districts. A good many questions were asked and satisfactory explanations given.

The new bill, after it is understood, is meeting with the same favor in this district as it has in other parts of Alberta and in Saskatchewan where it has been operation for the past few years.

Already Ranges 22, 23 and 24, W. 4, in Townships 42, 43 and 44, have received the required number of signatures and have petitioned the Government asking that a vote be taken for its adoption.

The majority of the farmers from the other districts also have expressed themselves in favor of the act, and the desirability of taking a vote. They are pleased with the larger measure of local self-government which the act gives, and with the fact that the Government will continue the financial assistance given towards local improvements.

Both speakers favored the plan of the municipalities engaging road gangs, allowing those who wished to work out their taxes under a foreman, and that financial aid should be given the municipalities granting them larger powers in this regard, and that under this system more continuous and durable roadbeds could be built.

Mr. Stewart also acquainted the meeting with the fact that the services of a government engineer would be freely given to co-operate with them in the new work.

The crops in the Ponoka district never looked better. There is an increased acreage under crop, sufficient moisture and plenty of warm sunshine, making them easily three weeks earlier and at least twenty-five per cent better than last year.

DEADLOCK STILL IN CONVENTION

After Taking Twelve Ballots Delegates Adjourn After Three This Morning.

CHAMP CLARK MAKES CONSIDERABLE GAINS

Both Wilson and Clark Maintain That They Can Hold One-Third of Delegates.

Baltimore, June 29.—After taking twelve ballots since four o'clock Friday afternoon, the Democratic national convention had not decided on a candidate for president when an adjournment was decided upon at 3:05 this morning.

The only serious break in the line-up of the candidates came on the tenth ballot, when New York's ninety delegates switched from Harmon to Clark.

This caused a big Clark demonstration, but it was followed in a few minutes by a Wilson demonstration which delayed maters nearly three-quarters of an hour. Both Wilson and Clark men say they can hold more than one-third of the delegation indefinitely.

Big Crowd Gathers

A general understanding that spread throughout the city to the effect that a nomination would be made before the adjournment of tonight's session of the democratic convention filled the galleries long before the regular hour for the calling of the convention. The heat was worse than during last night's session and the delegates in addition to doffing the coats stripped off their collars.

Some of the managers of the rival forces were on the floor early, strengthening their lines among the delegates, and seeking to find weak spots in the line-up of their opponents.

The Wilson forces asserted confidently that the consistent gains shown by Wilson in the first five ballots indicated a strength that would gradually increase as the balloting continued.

The Clark forces, on the other hand, claimed to have enough delegates pledged to prolong the deadlock indefinitely if Wilson's gains continued

The convention was called to order at 9:42 p.m.

Wants 2-3 Rule Suspended

C. N. Malleu, an Oklahoma alternate, tried to move to suspend the two-thirds rule and nomination by a majority vote. A chorus of disapproval greeted the motion and Chairman James quickly sustained a point of order against it. The roll call then proceeded.

On the sixth ballot, concluded at 10:11, the leading candidates stood. Clark, 445; Wilson 354 as against 443 for Clark and 351 for Wilson on the fifth ballot. The votes for other candidates were Underwood, 121; Harmon, 135; Kern 1; Bryan, 1.

Compared with the fifth ballot this shows gains of two votes for Clark and thre for Wilson. Underwood's vote was the highest so far polled for him. Harmon's vote was the lowest he has received, six and a half less that he had on the fifth ballot.

The Grind Goes On.

Immediately the eighth roll call was ordered and the grind went on. While the roll call was proceeding, a circular denouncing Wilson was distributed among the delegates. A Wilson man from New Jersey, objected and the distribution was ordered stopped. It took a squad of police to stop it, and for a few minutes trouble seemed imminent. But the disorder was quited and the roll call proceded.

The vote on the seventh ballot was Clark, 449 1-2; Wilson, 352 1-2, Underwood, 123 1-2; Harmon, 129 1-2, Marshall, 31; Kern, 1; Bryan, 1.

The ninth ballot showed a gain of 3 1-2 for Clark and a gain of 1 for Wilson; Underwood lost a half and Harmon three. Again the "no domination" announcement was made the tenth roll call was begun.

The Break Comes

In Michigan, Clark gained 4; Wilson and Harmon each lost two. Then came the predicted break over the hush that preceded the announcement of the New York vote on each ballot came Charles Murphy's voice "New

The rest of the announcement was lost in the uproar that swept the hall. The Clark people with a yell leaped to their feet and a demonstration was underway. At 12:38 the demonstration had continued twenty minutes and unlike those of last night it was carried on almost exclusively by the delegates. Soon afterward the chairman pounded for order and the roll call continued.

Cheering Deafening

The cheering became deafening. Bryan started a poll of the Nebraska delegation. Two gray haired delegates from Nebraska grasped his hands and cheered.

The result of the vote on the tenth ballot was: Clark, 556; Wilson, 350 1-2; Underwood, 117 1-2; Harmon, 31; Marshall, 31; Kern, 1; Bryan, 1. This was a gain of 104 for Clark, but he still lacked 170 of the necessary two thirds.

The eleventh ballot resulted as follows: Clark, 554, Wilson, 354 1-2; Underwood, 118 1-2; Harmon, 29; Marshall, 30; Kern 1; Bryan, 1.

Baltimore, June 29.—(Bulletin) Twelfth ballot: Total 1,088; Clark, 547 1-2; Wilson, 354; Underwood, 123, Harmon, 29; Marshall, 30, Kern, 1.

Baltimore June 29.—(Bulletin) The convention adjourned at 3:05 this morning until 1:00 this afternoon.

Twenty-Four Years Ago.

(Taken from the Files of the Bulletin of June 29, 1888.)

Wild roses and lilies are in bloom.

D. S. McKay, of Livingstone's Creek, has potatoes in bloom.

The days are now becoming shorter—an ever-recurring warning not to waste time.

Strawberries, both wild and cultivated, are ripe. The supply is not yet very abundant, but there is every promise of an abundant crop.

The cricket match on Saturday between the Edmonton Old Timers and Clover Bar resulted in favor of Edmonton by an innings and 23 runs.

It is worthy of note that while we at Edmonton have been enjoying an ample rainfall ever since early in May, at Battleford and Prince Albert, further down the Saskatchewan valley, the weather was very dry until last week, when a heavy rain fell. This must give Edmonton quite a lead on crop this season—as usual.

The distribution of prizes for the summer term at St. Joachin's school took place this afternoon, commencing at 1 p.m.

Miss E. Phillips, teacher of music, left on Friday for Chicago and Ontario. She will be absent about two months.

D. Ross has cabbages of this year's growth fit for table use.

Fresh cauliflowers are on the market, for sale at Lauder's fruit store.

Beaulieu, a trader of Fort Smith, on Great Slave river, arrived from the Landing today with his winter's trade of fur.

The examination of candidates for teachers' certificates will commence on Tuesday in the Edmonton public school and will continue all week, including Saturday.

Mrs. P. V. Gauvreau and children returned from a long visit to Rinwouski, Quebec, Battleford and Regina on the train of Thursday last.

A pair of young silver foxes, brought to Edmonton by some of the Chippewans from Lake Athabasca were purchased by G. W. Hislop.

Eustace and Joseph Ladonceur traders of Lac la Biche, are in town with their winter's sale of fur.

Miss Minnie Fulton, of Canmore, arrived by Thursday night's train and intends spending her vacation with Mrs. Ross.

Mecrech, a Chippewan half-breed from Lake Athabasca, sold a lot of fur to the H. B. Co.

Several cases of scarlet fever occurred at St. Albert lately. So far it has not taken a virulent form.

A heavy rain occurred on Thursday night, making the roads very muddy.

It is expected that green hay will soon be delivered in town.

C. Whalen, St. Albert, has wheat in head which stands almost five feet high.

Wild berries are selling at $1 to $1.50 per pail.

SUFFRAGETTES BEGIN DESTRUCTION CAMPAIGN

Smash Windows in Number of Buildings and Say They Will Smash Windows of Every Post Office in England—Premier Asquith is Also Attacked.

London, June 28.—A general campaign of destruction in the post offices throughout the country was inaugurated today by the suffragettes. They smashed the windows of the central post offices at Manchester and in the same city destroyed those of the reform club. Those of the London branch office and also those at Hitchin and Ketchworth were similarly raided.

A number of women were arrested and at the police station announced their action today was the beginning of a plan to smash the windows of every post office in England.

The post offices at Edinburgh, Aberdeen, Derby, Ilkston, Ludlow and South End were among the victims of suffragette window smashing columns in the course of the day.

Premier Asquith was subjected to another assault last night while he was attending a reception given by Lady Glenconner. A woman, whose identity has not been divulged caught him by the lapels of his coat and shook him vigorously until the premier was breathless. Then two men among the guests present, caught Mr. Asquith's assailant and hurled her downstairs. The struggle was so vigorous that the sleeve was torn out of the suffragettes dress, her comb fell out of her hair, her gold watch was broken and she lost her diamond brooch.

BENEFITS OF PANAMA CANAL

These Form Topics of Discussion at the Convention Now Being Held in Calgary.

MANY SUGGESTIONS FOR THE RESOLUTIONS

Speakers Emphasize the Necessity of Being Prepared for New Route of Trade.

Calgary, June 28.—That the commercial, manufacturing, mining and agricultural interests of Western Canada are awakening to the benefits which may accrue to them through the opening of the Panama Canal was well evidenced today when more than 100 enthusiastic delegates from the more important provinces in western Canada assembled to begin a two days discussion of these benefits and to outline the best joint policy to be pursued in order to obtain their full advantage when they come.

One speaker asserted that the United States was giving western Canada virtually millions of dollars by the opening of the canal. No section of North America, he said, is to be more greately benefitted. He predicted that by it, untold wealth would be dumped into the lap of western Canada not to the advantage of any particular industry but to the upbuilding of all industries and of general prosperity.

Working on Resolutions

What definite suggestions the conference will make, are as yet unknown. Many suggestions have been made to the committee on resolutions and they are now working these into form for presentation to the convention.

This morning was taken up largely in the perfecting of a permanent organization and on addresses on the relation of the canal to the agricultural interests of Canada.

The conference was called to order by D. A. Dagg, president of the Calgary board of trade, pressure of business having prevented R. B. Bennett, who was to have been in the chair, from attending the opening session. Mr. Dagg introduced his worship, Mayor Mitchell, who on behalf of the city, welcomed the visiting delegates to Calgary.

W. J. Tregillus, president of the United Farmers of Alberta, addressed the convention on the Panama canal and the agricultural interests of western Canada. He lamented that fact that the economic conditions we have in this country today are not giving the farmer the opportunities he should have. The farmers, he said, are up against monopolies that are levying tributes upon them that are too heavy. This is not as it should be. If we are to prepare ourselves for the new market that the canal will open for us, we must, in order to get full advantage, help the farmer to overcome the burden under which he is at present laboring.

The greater part of Mr. Tregillus' effort was taken up in convincing the delegates that the agricultural interests as the foundation of all other interests, must be first looked to in preparing for the advantages that will accrue with the opening of the canal.

HIGHWAYS NEEDED FOR DEVELOPMENT

Scottish Baron Who Made a Tour Through Canada Is Enthusiastic About the West—Doesn't Fear Slump as Development Must Continue.

Montreal, June 28.—Delighted with the results of his several weeks' tour in the far west, Lord Montague of Beaulieu, a baron of Scotland, is in the city today preparatory to the immediate continuation of his journey to New York and thence to London.

Speaking about the condition of roads suitable for motoring, Lord Montague, who is the proprietor of the well known motor journal, "The Car," said: "The roads don't exist here." There are only the railways. There will be no real development of the west until excellent main roads are laid down, as in Scotland and England. The independent business spirit of a young nation is fostered only by free thoroughfares for her commerce throughout the length and breadth of the land.

"I believe in the business efficiency of the motor car. It will in my opinion always beat railway and electric traction." Asked about his tour, Lord Montague said:

"The west is simply great. Prices for land are high, almost prohibitive. But I do not fear a slump, because the development there must continue."

Disease in Liverpool.

London, June 28.—The foot and mouth disease which recently appeared in Penrith, Cumberland, is now reported to be prevalent in Liverpool.

DOUGLAS-NEWTON.

A wedding of great interest to Westerners was celebrated in Holy Trinity Church, Winnipeg, at 7:30 on Thursday night, when Miss Brenna Newton, third daughter of Mr. C. H. Newton, and Mr. Ralph Howard Douglas, son of Mr. and Mrs. Howard Douglas, were united in marriage by the Ven. Archdeacon Fortin.

The interior of the sacred edifice was relieved with verdant palms and white peonies. Pink and white sweet-peas knotted with white satin ribbon marked the guest pews.

Mr. Waftel presided at the organ, the ushers, Mr. W. B. Beecher and Mr. Alan Crawley, leading the bridal procession.

The bride, who was brought in and given away by her father, was very lovely in ivory satin charmeuse veiled with ivory Brussels net, embroidered in white floss, pearls and crystals, her veil coronetted with orange blossoms. A bouquet of orchids and valley-lilies was carried. Her gift from the groom was a pendant of pearls and peridots.

Miss Leslie and Miss Rae Newton, the bride's sisters, attended as bridesmaids, both wearing white satin veiled with white ninon, embroidered in lavender and pink and finished with fischus of shadow lace. Their hats of white tagel braid were trimmed with plumes and faced in the tints of the gown. They carried bouquets of white roses and sweet-peas—the first having chosen lavender, the latter pink, and each carrying the bridegroom's gift, a silver chatelaine.

A niece of the bride, Miss Frances Pace, wore a white frock and carried a basket of marguerites, making a dainty flower-girl. Her gift was an enamel bar pin.

Mrs. Newton mother of the bride, wore lavender ninon mounted on satin of the same shade, with a hat of tagel braid trimmed with a mount of pale yellow tips.

Mrs. Howard Douglas, the bridegroom's mother, wore cream chiffon figured in black, with a white lace coat made empire, and white hat trimmed with black plumes and pink roses.

Mrs. F. M. Pace, a sister of the bride, wore white embroidered mull, with a white plumed Panama hot.

Mrs. Travers Sweatman, a sister of the bride, wore white embroidered marquisette and a white hat faced in black, finished with a contrasting wreath of pansies.

A reception followed the ceremony at the church, the decorations being peonies, palms and ferns. The bridal table was abloom with lilies-of-the-valley, four baskets gracing the corners, while the wedding cake, mounted with the same bloom, occupied the centre.

Mr. and Mrs. Douglas left on the late train for Banff, the bride wearing a grey tailored costume of serge, with a hat of white tagel braid trimmed with clusters of French roses and cream lace.

SUMMER HOME FURNISHINGS.

One's country home may be started right from the woodwork up and no matter what sort of furniture graces the rooms, if walls and woodwork are of the light, summery sort, the house will look cool.

Heavy draperies are banished in summer time, windows and doors are thrown wide and even if awnings or outside blinds subdue the glare of the sun, the suggestion should be that of light and airiness rather than the dark richness and elegance of winter interiors.

White woodwork is charming throughout the country house, and a soft ivory-white finish should be selected rather than the gleaming enamel, which soon soils and is harder to clean than the dull white.

With white woodwork all wall papers except dark browns and tapestry effects harmonize well, but the choice of country house wall papers will doubtless lie among the light, flowered effects, or the two-tone papers in soft grey-greens, grey-blues or other artistic tints.

For the bedrooms the cretonne patterned papers are charming, and flowered papers in conventional designs may be used for the living room, if the latter is to have rather the character of an airy, bright morning room than a deep-toned library.

The choice of summer furniture is very wide nowadays, when so many different styles are carried by the department shops at a broad range of prices. Time was when all the old relics and has-beens of furniture accruing from two generations of family life was shipped off to the country domicile to enjoy a new lease of existence, perhaps with the addition of white paint and gay chintz cushions which only made their creaking, decrepit age all the more pitiably apparent. Nowadays, however, the has-beens are sent to the second-hand furniture dealer and the few dollars they bring are put into fresh new curtains or yards and yards of cretonne for the brightening of the country house with simple, good furniture, is purchased.

Wicker furniture is ideal for summer use, and while rather expensive at first cost, this furniture is very enduring. Simple, substantial shapes are best, and ornate and fanciful effects should be avoided.

Summer chairs should be low, deep and broad, with backs high enough to rest a weary head against and arms broad enough to support the hands and elbows.

The wicker tea-wagon is a convenient bit of summer furniture, for tea may be prepared in the kitchen and wheeled out onto the lawn, porch or into the living room with great ease. There is a removable tray in the top of the tea-wagon, so that the dishes may be lifted out and set on a table for washing.

The wicker chaise lounge is a French favorite lately taken up enthusiastically in smart country houses over here. This low lounging and reading chair is particularly delightful for porch use and is much more comfortable than a hammock for lazy summer afternoons.

GOOD SUGGESTIONS.

One need never be bothered with mosquitoes, gnats, or flies out of doors if oil of lavender is used. A small bottle, about twenty-five cents' worth, lasts a summer. Touch the arms, face, neck, and ankles above the low shoes with the moistened cork occasionally.

For the children's lunch basket save all the empty coldcream jars, make them absolutely clean, and when preserving time arrives fill them as you would the larger jars. They are just the thing for the picnic basket. From time to time put ttttooo nnn hhdduu mmww pp thm one of them into the children's lunch basket, with a few biscuits. Preserves with biscuits are much better for children than ordinary pies; and these "individuals" will give no end of delight to the children.

The announcement of the engagement of Lady Evelyn Grey to Mr. Lawrence Jones, of the Inner Temple, son of Sir Lawrence and Lady Jones, of Cranner Hall, Fakenham, and Cardfields, Hatfield, Peveral, has caused the newspapers to discuss the question of the part of the name of Jones plays in the peerage. Lady Evelyn will be the only bearer of the courtesy title of "Lady," although there are two ladies who are the "Hon." and one wife of a baronet. There are several Smiths in the peerage, but no Browns without an "e," and Robinsons are almost unknown in the sacred volume. Canadians always perserve their interest in the families of ex-governors and to none does this apply more than to Earl and Countess Grey and their family. Good wishes, either written or merely felt have never passed on their object, have been sent to Lady Evelyn Grey by friends and admirers across the sea to remind her of her Canadian home.

Society in London is looking forward to the arrival of Baron Marchall von Bieberstein and his wife at the German Embassy in Carlton House Terrace. Count Wolff-Metternich, the out-going ambassador, may or may not have given great satisfaction to his master, the Kaiser, but the fact that he was a bachelor seriously handicapped him as a host. When Baron Marchall comes, things will be different. The baroness, who belongs to a distinguished family, has had a splendid reputation as a hostess. Both Baron Marchall and his wife speak English perfectly, and are fond of entertaining and being entertained.

U. S. Transport Reaches Nome.

Washington, D. C., June 28.—The army transport Sheridan, caught in the ice off Alaska, in the Pacific ocean, has arrived safely at Nome. A message to that effect was received at the War Department today from Major General Murray, aboard. The ship will remain at Nome until the Arctic ocean has cleared of drift ice.

ENTERTAINMENTS

"The SPRING MAID"

One of the most unique novelties ever attempted in comic opera is witnessed during the interlude in the second act of "The Spring Maid" the Viennese operetta which Werba and Luescher will present at the Empire Theatre for three nights, beginning Thursday, July 4th with a matinee Saturday. In the interpretation of the Legend of Carlsbald, the story is related with a musical description. The legend concerns a huntsman, who, in pursuing a rabbit, went far into the forest and when on the verge of exhaustion encountered a water sprite. The water sprite led the huntsman to a certain rock, which, when she struck with her wand, brought forth a beautiful bubbling spring. The characters —the huntsman, rabbit, beautiful bubbling spring, trees in the forest are denoted by bars of music. This display of musicianly talent is a clear indication of the quality of precision required in a composer to convey environment and feeling to his hearers.

"BEVERLY"

A. G. Delmater, whose trade-mark is "producer of clean plays," was for a number of years indentified with and largely responsible for the success of Fred C. Whitney's attractions which included Mme. Schumann Heink, Lulu Glaser, Madame Blauvelt and other noted stars. Mr. Delmater's initial production of Geo. Barr McCutcheon's "Beverly" a strong dramatization of the popular novel by Robert M. Baker which closed a long run at the Studebaker theatre, Chicago, last spring and will be presented at the Empire Theatre, July 1st, 2nd and 3rd.

"THE WOLF"

The opening play to be presented by the Winnipeg Stock Company, which begins a special eight weeks' engagement at the Lyceum theatre next Monday night, will be "The Wolf" Eugene Walter's great play of the Canadian north woods.

The Winnipeg Stock Company come heralded as on of the best and most pretentous stock companies that have appeared in Edmonton. During their engagement here many eastern successes will be presented, both dramas and comedies, which have never before been seen in western Canada. A feature of all productions of The Winnipeg Stock Company will be the elaborate mounting and staging of all the plays presented.

Special scenery and electrical effects have been built for each production by stage carpenters and scenic artists which are carried by the company and in many instances, it is said, plays will be given a more elaborate and beautiful staging that most of the higher priced road attractions which appear here.

The Lyceum theatre is undergoing a thorough overhauling and is being repainted and re-decorated throughout. Other needed improvements are also being made on the stage, and when the play house re-opens on next Monday night, patrons are promised an agreeable surprise.

SATURDAY, JUNE 29, 1912.

TWO QUALIFICATIONS.

Mr. W. R. Hearst is opposed to Woodrow Wilson being a candidate for the Presidency, because Mr. Wilson is an admirer of the British system of responsible government. Here are two reasons for thinking Mr. Wilson would make a good President. He knows a good thing when he sees it; and he is disliked by William Randolph Hearst.

BOUNTY HUNTERS ACTIVE.

The steel men are "stringing their wires" to make another raid on the Dominion treasury. Last winter they tried to get the bounties on steel production renewed, and were stood off in a way which left them with hopes of better success at a later date. They seem to think the date is about due. They may be right. The Borden Government has more troubles on hand than most Governments of the Dominion have had after being in power as many years as the months that the present Ministers have held office. Apparently the only chance they have of extricating themselves is by an appeal to the country. The time when a harassed government seeks relief from its troubles in a general election is a time not to be overlooked by those who want tariff and other favors. They can then stipulate the terms upon which their support may be procured. And the Borden Government needs the support of the steel-makers and all the other manufacturing interests they can line up. The bounties may not be renewed before an election; but we may look for them to revive promptly if the Government should be sustained.

FOSTERING LOYALTY?

The Grain Growers' Guide publishes what it declares to be a sample of hundreds of letters that have been received by it during the past few months. The letter was dated April 9, 1912:

> Enclosed find One Dollar for your valuable paper. I could not send the money before, as I, like a good many other farmers around here, am very short of ready cash this year. I shipped a car of wheat about the 20th of December, 1911, and it was graded at Winnipeg the 29th of January, 1912, but I am still waiting for the returns of the car, and when I have to pay 10 per cent at the bank which advanced me some money on the car, there will be very little left for my share when I do get the returns.

Yet when Western farmers who have gone through similar experiences protest against their enforced continuance and ask the privilege of selling their wheat in the United States when prices there are satisfactory or when the returns are more quickly available, they are branded as wanting loyalty to the British Empire, and suspected of harboring a design to annex Canada to the United States. How much better off is the British Empire or any part of it because this man has been kept out of the proceeds of his car of wheat for four months, and because the prospect is that he will have to wait an equal length of time for the proceeds of the crop now growing in his field? Is this kind of treatment conducive to contentment, which is the father of loyalty? Or would conceding its victim the privilege of doing business in a business way make him think less of the blessings of British citizenship?

BEEF PRICES.

The Red Deer News notes that a farmer in the Stettler district sold some steers for prices ranging from $90 per head to $120 per head, and the News calls upon its readers to marvel that such prices prevail and to regard them as blessings which would have been thrown away had reciprocity carried. The argument does not hold, because at the weights given and the prevailing prices the steers would have brought as much money if sold in Chicago as they brought when sold to the Alberta buyer. And if the fact that such prices prevailed in Alberta is something to marvel at—when equally good prices prevail south of the boundary—is not that an admission that the prices are abnormal in this part of the continent? The practical question is: How many farmers in Alberta have steers to sell, even at $120 per head? And when they had steers to sell—as they had a few years ago—what were the prices then offered them? The prices which justly excite the satisfaction of the News are prices which prevail in Alberta only when the Alberta farmer has few steers to sell. When he produces steers in plenty the price is cut down; and because the buyers are few and the steers many the prices are cut below the margin which leaves the farmer a profit. That is why, though beef prices are high in Alberta, there are not enough cattle produced in this fine grazing Province to supply the local demand. If there were cattle enough to supply the demand, the prices would not be high; by the evidence of many and unpleasant experiences, they would not be high enough to pay the farmer for feeding the cattle. If our cattle had free entry into the great market next door, a surplus of beef cattle would not bring the ruinous cut in prices which has inevitably followed a surplus in years gone by, and which the farmer now clearly foresees would follow the production of a surplus three or four years hence. Manipulation of prices has ruined the beef-producing industry in Alberta, and until some element is introduced which will provide stability in prices cattle will continue to be scarce though prices may be high. The most effective means of bringing about that stability is to let the buyers of the United States come in and compete with the Alberta buyer for the surplus which the Alberta farmer could, and gladly would, produce. The friends of the News at Ottawa, having refused to let the United States buyer bid for Alberta cattle, it is for them to find some equally good outlet for the surplus beef that Alberta should produce but does not; and so to give the Alberta farmer assurance that if he grows steers the prices will not shrink faster than the herds increase.

CURRENT COMMENT

From the Wall Street Journal—Colonel Roosevelt defines a progressive as "a man who works with his face towards the light." Move to omit the last three words.

Washington Star—The Chinese populace is awaking to the solemn fact that it takes more than a unanimous hair-cut to establish a republic on a practical basis.

Hamilton Herald—If the tobacco grown in Western Ontario is anything like the tobacco grown in Quebec we agree with the London Methodist conference that its a sin to grow it.

Ottawa Journal—Sir James Whitney will take a step very timely, very necessary and very welcome to the public in this province if he moves for competent qualification for chauffeurs.

Ottawa Citizen—It is high time that an example should be made, especially among those dealing in necessaries of life, to dissipate the brazenly [illegible] by eliminating competition prices can be advanced to any extent for no reason except that "we need the money."

Saskatoon Phoenix—When Rt. Hon. R. L. Borden called Mr. Robert Rogers to fill a position in his cabinet, there was no mistaking the ulterior motives governing the choice. Mr. Rogers was not selected for his general intelligence, which is hardly above the average, nor for his administrative ability for that is belied by his record. He was chosen exclusively for his political astuteness, that grade of mental capacity which finds its expression in a cunning outwitting of other men absolutely regardless of the ethics of the game.

WETASKIWIN.

Bulletin News Service.

Tuesday was an exceptionally busy day for the mayor, aldermen, and city assessor, when they considered the number of appeals against the assessment of this year. All the members were in attendance. It was agreed that all appeals which were filed, too late, would be dealt with by the court, as though they had been filed in time. The largest and most important appeal of the assessment was that of the C. P. R., which has been increased from $30,000 last year to $270,560 this year for station grounds. A representative of the company was present and strenuously objected to the increase which he characterized as being unjust and illegal. The area in question contains 78 acres and has been assessed as business property. The court of revision did not deem it advisable to alter the figures of the assessor in this instance and notice has been given that the railway company will appeal the assessment. C. S. Lott, on behalf of the Townsite company, was present and made a general appeal against all the property held by the company. He succeeded in having a few slight reductions in residential lots, while the 179.60 acres controlled by the company was reduced from $89,800 to $85,810. Fowler & Co.'s stock and fixtures were reduced from $50,000 to $38,000. A number of small amounts were reduced to the different appellants, but with the exception of the cases referred to above, very slight alterations were made in the assessment.

R. W. Manley and Court Stenographer H. E. Cutler left for Wainwright on Tuesday morning to attend court on Wednesday. From there the latter will proceed to Poplar Hill, Ont., where he will spend the legal vacation.

J. J. Christopher left on Friday last for Tignish, P.E.I., where he will spend a month or six weeks renewing acquaintances.

The many friends of Mrs. A. Rubbra are pleased to learn that she has so far convalesced from her recent serious operation, that she was able to return to the city from the Edmonton hospital on Thursday last. Mr. Rubbra accompanied her. She is now getting along nicely, and her friends hope to see her about shortly in her usual wonted health.

Hugh McGrandle, D.L.S., came down from the foothills this week to look after some business affairs. He returned again this week. He has a big season's work ahead of him, but he hopes with the big gang he has engaged to complete the work allotted to him early in the autumn.

Mrs. J. F. Richards and sister, Mrs. Geo. Crocker, autoed to Camrose last Friday, where they took the train for Donalda. They will spend a couple of weeks with relatives there.

A report was in circulation here this week that P. H. Thibaudeau, school inspector at Lacombe, was brought home by his team with his lifeless remains in the rig. A telephone conversation with the family, however, revealed the fact that Mr. Thibaudeau is hale and hearty, and never felt better in his life. It is beyond all conception where such rumors have their origin. The party or parties starting such reports should be prosecuted to the limit of the law.

Mayor Knox has commenced the construction of a handsome residence on Dickson avenue. When completed, this will be one of the finest homes in the city.

Miss Agnes Thorsley, who has been continuing her musical studies in the city, during the spring, left this week for her home near Ryley. Several social gatherings were held during the week in her honor.

Sam Groves of Castor, was renewing acquaintances here last week.

Another old-timer of the Wetaskiwin district was called to her long home on Thursday last, in the person of Mrs. Fox, at the advanced age of seventy-one years. She was a native of Stratford, Ont., but resided for several years in Iowa, before coming to Alberta to make her home with her son-in-law, Mr. B. E. Boyd. Deceased was held in the highest esteem, and always had a cheery word of advice for her friends wanting consolation. The funeral took place on Saturday, the services at the residence and graveside being conducted by Rev. A. R. Aldridge, B.A. The sympathy of the entire community is extended to the bereaved relatives.

Mrs. Miller and Miss Miller left on Monday to join Mr. Miller, who is performing homestead duties at the Hand Hills.

The choir of the Presbyterian church and a few invited guests tendered Miss Crocker, of the Alexandra school teaching staff, a farewell social at the home of Mrs. John West on Tuesday evening, when a most enjoyable time was spent. During the evening Miss Crocker was presented with a handsome silver tray, on which was engraved the words "Miss Stella Crocker, from Wetaskiwin Presbyterian church choir, June 25th, 1912." Rev. C. E. A. Pocock, B.A., made the presentation in a few well chosen words, and Miss Crocker made an appropriate reply. Miss Crocker leaves in a few days for her home to make arrangements for a most important event.

M. M. Gillis, publicity commissioner, is exceedingly busy these days answering communications which are received as the direct outcome of literature issued from the publicity office. He is also in communication with a large concern in Saskatchewan wishing to establish headquarters in Alberta, and is hopeful that he will succeed in inducing them to locate here. The name cannot be revealed at the present time but when it is announced it will come as a surprise to the public.

DOCTORS COULD NOT HELP MY KIDNEYS

"Fruit-a-tives" Cured Me

MR. GEO. W. BARKLEY

CHESTERVILLE, ONT., JAN. 25th, 1911

"For over twenty years, I have been troubled with Kidney Disease and the doctors told me they could do me no good. They said my case was incurable and I would suffer all my life. I doctored with different medical men and tried many advertised remedies, but there was none that suited my case. Nearly a year ago, I tried "Fruit-a-tives". I have been using them nearly all the time since, and am glad to say that I am cured. I have no trouble now with my Kidneys and I give "Fruit-a-tives" the credit of doing what the doctors said was impossible. I am seventy-six years old and am in first class health."

Combination Sale

Next Tuesday, July 2nd, at 8.30 a.m., we start our regular Semi- Annual Clearing Sale. This Sale will be exceptional in that we must reduce our stock to the lowest possible amount on account of the extension of our building. In a few weeks we must do business in a much smaller space while the wall is being taken out between the old and the new buildings. The large business we have been doing all season made it necessary for us to postpone this sale to as late a date as possible.

We have now less than three weeks to prepare for the double event of stock-taking and moving into the annex. There will be no second opportunity. The lines we must sell will be marked at prices that will sell them quickly—8.30 in the morning will be the best time to shop. The items mentioned for Tuesday morning are only a few of the values that will be here for you.

SYNDICATE NO. 1 on Tofield acreage was bought up and over subscribed in about 48 hours, this covered 320 acres one mile due East of the town. This evidence of faith in Tofield acreage led us to secure control of another 320 acres one mile due west of the town, consequently we are now forming **Syndicate No. 2** upon the same terms and conditions as No. 1. Do you want to be a Ground Floor *Man*? We are forming a syndicate to purchase a half section of the best situated land at $100 per acre, one mile from the town and the big natural gas well.

This land is in the heart of an immense coal area, while most of the adjoining lands are covered by gas and oil leases. If the town of Tofield, with its natural gas, coal mines and oil prospects, not saying anything of its agriculture, is going to prosper, every one of the 32 shareholders will reap a handsome profit. **Honestly, if you have a speculative bone in your body, come in quick and investigate our offer. Come in early, as this syndicate should be fully underwritten within 24 hours.**

CHAS. TAYLOR LAUDS TOFIELD GAS STRIKE

The Only Other Well in the Province to Exceed This One Will Be Big Gusher at Bow River, Says Well Known Expert.

Charles Taylor, of that town, better known to Edmonton people as former street railway superintendent here, said to a Bulletin reporter while being interviewed:

"The gas looks to be about ninety per cent methane. Of course it has not been analyzed or measured yet, but when it is I'll warrant the statement that there will be only one other gas well in the province that will exceed this one, and that is the big gusher at Bow Island."

According to Mr. Taylor, the well at Tofield will prove a commercial well, He estimates the flow at 1,500,000 cubic feet per day. This, if sold at five cents per thousand, would mean $75 per day return.

The work of capping the well was to be done last night. The well itself is right in the centre of the town, not more than fifty yards from the town hall. Two families moved from their homes on Monday because they were so close to the well that it was feared their homes might catch fire.

"One result will be that Tofield will become the brick and tile centre of the province," said Mr. Taylor, "for with the great clay deposits and cheap power, the town will be better situated for this class of work than any other in the province."

NEWS OF THE SOUTH SIDE

ADVENTIST CAMPERS FIGHT LIQUOR TRAFFIC

Convention Passes Strong Resolution—Also Thank the City and Other Friends for Kindness—Decide to Extend Their Work to Other Points.

The seventh annual session of the Alberta conference of Seventh Day Adventists brought the business phase of their convention to a successful close on Friday. Between three and four hundred persons, encamped in about fifty family tents, enjoyed the privilege of attending the convention. Meetings of a spiritual character have been held each day at the usual hours.

The closest unity of heart and purpose has been seen throughout the convention, and the Adventists express gratification at the measure of success their denomination has experienced during the past year.

Reports rendered by the different branches of missionary activity show that each branch is proving successful, both financially and spiritually.

Resolutions were unanimously carried at each business meeting recommending extension and enlargement in the plans for the coming year. In educational lines especially, it was found necessary to increase the staff of workers, and the amount of capital invested.

To Publish in Foreign Tongue.

Special attention was paid to the publishing department, as it has proved the most successful in carrying the gospel to that portion of the population of Canada which does not attend any place of worship.

It was recommended that books and tracts be published in the Russian, Galician and Polish languages for the benefit of the foreign element of the Canadian population.

The committee on plans found it necessary to call for a resolution to expend the sum of $400 for new tents to be used in the coming year.

The following important resolutions were passed at the last business meeting:

Resolutions of Adventists.

"Whereas the liquor traffic is the great overshadowing curse of this and other lands, filling almshouses with paupers, our jails and other penal institutions with criminals, dethroning reason and crowding our asylums with mental and physical wrecks, multiplying widows and orphans, and increasing untold wretchedness and misery in the land; and whereas the sale of alcoholic beverages makes drunkards, destroys the lives, and corrupts the morals of both sex, increases dissipation in the land, and ruins for time and eternity those who become victims of this awful traffic; therefore

"Resolved—That we do hereby declare our united stand against the manufacture and sale of alcoholic beverages in every form, against the use of fermented wine at the communion table; also against the use of tobacco; and that we express our appreciation of the good work being done by different temperance organizations in the interest of temperance and the total abolition of the sale of rum, and that we urge our people to co-operate, as far as possible, in all proper efforts to stem the increasing tide of intemeperance which threatens us."

Heartily Appreciated.

"Whereas the city council of Edmonton has released us from the usual building license and granted us free water; and whereas the owners of these grounds have freely granted us the use of the same; and the citizens of South Edmonton have shown many other courtesies; and the C. P. R., C. N. R. and G. T. P. have given us liberal rates at this time of our gathering.

"Therefore, resolved that this body and conference assembled express their hearty appreciation by a vote of thanks."

These resolutions were unanimously carried, and the conference dismissed after singing the Doxology.

PRESBYTERIANS AND BAPTISTS TO UNITE

For Three Weeks During the Holidays the Two Congregations Will Have the Same Minister, Church and Choir, Month About.

Following a practical plan of Christian reciprocity, the patrons of the Presbyterian and the Baptist congregations on the South Side, have arranged for a supply of their pulpits during their vacation. Provision will even be made for the musicians so that they too may have a vacation. The congregation should become better acquainted in Christian fellowship.

During the months of July and August the congregations of Knox Presbyterian and First Baptist churches will worship together while their respective ministers are away on vacation. During July Rev. E. McGougan, of Knox, will have charge of the united congregation, and in August Rev. McGill, of the First Baptist church.

The services will be held in the First Baptist church in mornings and in Knox Presbyterian in the evenings; the choir of each church providing the music for the services held in their church.

MINISTER OF LABOR HERE

Hon. T. Crothers, minister of labor, left for the south via C. P. R. on Friday afternoon. At the depot he was met by a delegation of local citizens including R. J. Carter, Rev. C. Carrothers, Clark, H. Wilson and N. C. Wilson and Mesdames Bush, A. J. McLean, Carruthers and Duggan.

The minister of labor was interested in the past history of the South side and in the present prospects of greater Edmonton.

DOLL NAMING AT SOCIAL

A very pleasant and profitable lawn social was held on the lawn at Holy Trinity church on Tuesday last by the young ladies of the junior W. A. Home made candies, lemonade, ice cream, tea and cake were dispensed by charming young waitresses. A feature of the gathering was the naming of a beautiful dressed doll which was given to the one guessing its name for the moderate cost of 10 cents. Little Miss Olive Carruthers solicited names and Mrs. G. F. Downes was the lucky one winning with the name "Nita."

BAPTIST CHILDREN'S PICNIC

This Saturday afternoon, the annual picnic of the First Baptist Sunday school will be held in the beautiful Riverside park, Edmonton south. A good program of sports is being arranged and suitable prizes provided. The parents of the children are looking after the refreshments and if the weather man is kindly one of the best outings of the season will be enjoyed. All friends of the school are welcome.

THE FINANCIAL AND COMMERCIAL MARKETS

Winnipeg Grain Markets

Winnipeg, June 28.—Continental cables and Liverpool cables were all lower today, but these facts were not sufficient to influence the market here, which was strong at the opening mainly on the weather map, showing no general relief of dry, hot winds in the prairie provinces. Synopsis of the report wired to Minneapolis and Chicago combined with unfavorable reports from western spring wheat states helped to jump those markets also. The advance here was 1 1-8 cent for July and 1 3-8 cent for October, with firm undertone. Fluctuations were narrow in the near vicinity of the high points and trading was decidedly active, particularly on contracts for October, which again sold over $1.00.

American markets were very strong Chicago July advancing 3c over Wednesday's close and Minneapolis September 2 3-8, which, however, was not maintained. Winnipeg closed 7-8 cent higher for July, 1 3-8c higher for October. Minneapolis closed 1 1-4 to 2 1-4 cents higher. Chicago closed 2 1-4 to 2 3-4 cents higher. The cash demand for No. 1, 2 and 3 was very keen and prices advanced one cent, while lower grades were not much in request and offerings were fairly liberal on prices coming into line. During the earlier hours oats were quiet, but the demand improved later and prices were higher, while flax was higher for July, October selling at 167. Receipts were heavy today again, 400 cars being in sight for inspection.

Chicago Grain Markets

Chicago, June 28.—An upheaval in prices for wheat took place today as a result of dry weather in the northwest. The close was steady at a net advance of 1 1-4 to 2 7-8 cents. Oats finished 1-2 to 1 7-8 up. Strength developed in wheat as soon as shorts attempted to cover.

Belief grew rapidly that the annual scare for the spring crop had begun although the bulk of evidence from the northwest was that growing grain had not deteriorated except in limited territories.

The fine crop outlook caused oats to lag in the general advance of grain. Upper and lower levels touched by September were 40 5-8 to 42 5-8 with the close at 42 3-8.

Toronto Stock Markets

Toronto, June 28.—Mackay common came to the front today on the local board with an advance of one point in price. The Brazilians suffered under profit taking. Sao Paulo declined to 246, against 250 1-8 on Monday. Rio less active than of late, although dealings aggregate 4,010 shares. It declined to 147 7-8 on some further liquidation and closed at 149 7-8. The decline from the high point of 156 7-8 on Monday is 9 points. There is no special news regarding Mackay, which was traded in to the extent of 657 shares. [illegible] the shorts tried to cover, but when the stock reached 88 3-4 it came out freely and closed at 88. There was a good deal of buying of Lake Superior. The weakness in Toronto Railway in the afternoon was a disappointment. It closed at 142 1-4 or a net decline of 1 1-8. It is just a year ago since Toronto Rails were being boomed in anticipation of the cutting of the melon. There is an impression that the dividend will soon be increased to 10 per cent. Winnipeg Railway made a slight advance, closing at 231. Mexican Power was heavy, there being sellers at every show of strength. It closed 2 3-4 lower at 97. Bank shares quiet. Canadian Pacific Railway firm at 264 1-2 bid, and Twin City offered at 109, but no sales reported in either. Money is firm at 5 1-2 per cent on call.

Following are the quotations today:

Sao Paulo, 705 at 238 to 7-8.

Toronto Live Stock Markets

Toronto, June 27.—Heavy supply of common grade cattle had the effect of driving prices in this variety of stock down fully $1 per 100 pounds today at the city cattle market, many common cattle selling around 3 cents per pound. Owing to the shortage of all kinds of cattle recently and the consequent high prices of choice beef cattle, the rough stuff has been selling far above its worth and the sudden inrush of unfinished stock has had an instantaneous effect in lowering quotations. It is doubtful, however, whether choice butcher steers and heifers are any easier. The highest figure touched today was $8.00 per 100 pounds, but there were no cattle on sale that would have fetched more under the most favorable circumstances. Sheep were a trifle easier at the close of the market, best ewes selling no higher than $5.00, but other stock was unchanged. Receipts for yesterday and today total 1,25 cattle, 2,256 sheep and lambs, 2,000 hogs and 551 calves.

Once His Hairs Were Countless Now They Are Numbered

Save Your Hair While You Have Hair to Save.

Many a poor fellow whose hairs are today countless will in time find them numbered unless he begins at once the use of that well-known hair saver,

NEWBRO'S HERPICIDE

If your scalp itches and you find loose hair and flakes of dandruff on your clothing and in your hair brush, that is all the evidence you need, to know you are getting bald.

Don't wait too long. It is easier to save the hair you have than to grow new. Start right away with the use of NEWBRO'S HERPICIDE. HERPICIDE kills the germ that causes dandruff, checks the further loss of hair and allays the itching. It makes the scalp clean and healthy and gives the hair a natural luxuriance, life and vigor.

There are many imitations of HERPICIDE and a score of preparations claimed to be just as good. Don't be deceived. You want results, therefore insist upon having the Original Dandruff Germ Destroyer. It is sold everywhere in 50 cent and $1.00 sizes, satisfaction guaranteed or money refunded.

SEND TEN CENTS in postage or silver to cover cost of packing and mailing, to the HERPICIDE COMPANY, Dept. 84 B, Detroit, Mich., for a sample bottle and a booklet on the care of the hair. Applications obtained at the better barber shops and hair dressing parlors.

RANCH SUBDIVIDING IS CANDEMNED BY SIFTON

Nearly 100 Gather at Non-Political Banquet in Macleod to Honor Hon. Malcolm McKenzie, Provincial Secretary.

Macleod, Alta., June 28—The banquet given by the Macleod citizens in honor of the provincial secretary, Hon. Malcolm McKenzie, proved to be one of the most successful affairs of the kind ever celebrated here. Nearly 100 guests were present, including Hon. Mr. Sifton, Hon. Mr. Stewart and Hon. Mr. Mitchell.

Immediately preceding the speeches several letters were read by Commissioner Richardson, who was instrumental in getting the banquet up, expressing the regrets of some of the prominent men of the province who had not been able to attend.

Mayor Stedman, chairman, proposed the toast to Alberta, after a short speech in which he spoke of the early days of the R. N. W. M. P., and the good they had done the province.

Hon. Mr. Sifton spoke first of his friendship with Mr. McKenzie for the past 22 years during which time he had felt his interest in the well being of the country. He said that he recognized in him a capable man and that it was both advisable and necessary that he be added to the cabinet.

Retards Development.

He went on to speak of the development of Alberta as a province and condemned the practice of subdividing the farms and ranches of the country and holding them as speculations, saying that this was what had and would greatly retard the development of Alberta. He also spoke briefly of Alberta's railroads and the great strides made in that line during the last few years.

The next toast was that of the provincial secretary. In proposing this toast Mr. Stedman spoke of his knowledge and admiration of Mr. McKenzie and thanked him for his efforts on behalf of that town. He impressed upon the audience that the banquet was entirely non-political and solely a recognization of Macleod's esteem for Mr. McKenzie as a citizen.

Mr. McKenzie in replying said he deeply appreciated the honor done him and that he felt that if he was worthy of it his public life had not been altogether mis-spent. He spoke of the early days of Macleod when it was unrecognized by railways and seemingly out of the civilized world and of the slow and gradual growth of Macleod to its present standing where it promised to become a large and prosperous city.

Non-Political Banquet.

Hon. Mr. Mitchell expressed himself as glad that the banquet was non-political and that he would not have to speak of the good things that the government had in store for Macleod. In ending, he stated "Macleod's day has commenced."

Hon. Mr. Stewart spoke of the development of Alberta and of his desire to see the north and south united as one whole working together for the good of the province. He spoke of the assistance of the boards of trade in the various towns in the building up of the country.

Mr. Quail, of Lethbridge, was the last speaker. He said that until lately he had been a resident of Claresholm, Mr. McKenzie's constituency, and expressed that town's hearty appreciation of their representative.

NOT POSTAL TELEGRAPH CO.

Which Is Being Sued By the State of Arkansas.

New York, June 27.—Edward J. Nally, vice-president and general manager of the Postal Telegraph Company, being shown the statement from Arkansas that the Western Union Telegraph Company and the Postal Telegraph Cable Company had been sued by the state of Arkansas for violating the anti-trust law, said:

"The regular Postal Telegraph Cable company is not the one that has been sued by the state of Arkansas for combining with the Western Union. It is the Bell Telephone concern that has been sued under the name the Postal Telegraph Cable Company, of Texas. The words 'of Texas' are a part of its corporate name. The name of our company in Arkansas is the MacKay Telegraph Cable Company. The Bell people got our regular postal name in Arkansas, Texas and Oklahoma many years ago and are holding on to it. They enjoin us from using our own name in Oklahoma. Nice lot of people. I hope that the state of Arkansas succeeds in its suit."

PRELATES IN CONFERENCE.

Unity of Effort Discussed at Meeting in Lambeth Palace.

London, June 28—In Lambeth Palace, the historic home of the Archbishop of Canterbury, a small group of English and American churchmen assembled today to confer on plans whereby unity of Christian work may be accomplished.

Among those present were the Archbishop of Canterbury, the Archbishop of York and several other eminent men of the Church of England, and representatives of the Episcopal Church in America, led by the Archbishop of Chicago, the Bishop of Ohio, the Bishop of Vermont and the Rev. Dr. William T. Megnung, rector of Trinity church, New York city.

Fatal Fire in Louisville.

Louisville, Ky., June 28.—One person was killed and three probably fatally hurt in a fire in a rooming-house here at 2:20 o'clock this morning. Charles Rogers, a newspaperman; C. D. Hart, and a woman who has not been identified, were carried out unconscious by the firemen. R. Dunn, a musician, jumped from a third-story window and was rendered unconscious.

Travellers Meet in Columbus.

Columbus, Ohio, June 28.—The superb council of the United Commercial Travellers of America in annual session here yesterday considered a resolution calling upon the interstate commission to require railroads to issue 5,000 mileage books, good on all railroads and trains, to issue excess baggage books good for checking baggage on all railways, and to fix a flat excess baggage rate for all sections of the country at 12 1-2 per cent of the first-class fare. An effort is being made by the grand councils of Oregon, Washington, British Columbia and California to have the supreme council hold its 1915 meeting at San Francisco at the time of the opening of the Panama Pacific Exposition.

CAPTAIN S. P. SMEETON, I.S.O., who, with his family, has been resident in Edmonton for the past 3 years, is leaving for Kingston, Ont., on Monday next. Capt. Smeeton states that he has felt an ever-growing interest in Edmonton and cannot now resist the anticipation of a call back to the west. After 38 years in the tropical climate of Jamaica many of Captain Smeeton's friends thought he was facing a serious peril to his health in coming to this part of Canada, but as a matter of fact he now enjoys almost perfect health, and carries his "three score years and ten" quite heartily.

The following from "Who's Who," sets out Captain Smeeton's record —

Smeeton, Samuel Page, I.S.O., b. 1842; ed. privately; appointed clerk in Colonial office 1862, became a 1st class Clerk in Colonial Sec.'s office, Jamaica, 1870, Registrar Gen. 1878, and Dep. Keeper of Records 1899; conducted and reported the Jamaica Census 1881 and 1891; appointed a member of Marriage and Registration Commn. 1903; Capt. Jamaica Mil., retired, and a J.P.; m. 1st. 1863, Emma, who d. 1888; da. of E. Moore; 2nd, 1899; Jean, da. of J. R. Henderson, of Kingston, Ontario; cr. I. S.O. 1903. Edmonton, Alberta, Canada.

NEW OFFICE BUILDING FOR NAMAYO AVENUE

John Cook Will Erect Store and Office Building to Cost $50,000—Will be Similar in Design to the Jackson Block on Jasper Avenue.

A handsome four-storey store and office building will be erected on Namayo avenue between Rice and Elizabeth streets, adjoining the Engler block. The building permit was taken out yesterday afternoon for John Cook. In resign and appearance it will be similar to the Jackson block on Jasper avenue, and will cost about $50,000.

Work on the excavations for the footings will be started next Tuesday. The foundations will be made of sufficient strength to permit the addition of three or four more storeys. The building will be equipped with elevators, and every other modern convenience. The ground floor will be used for stores and the upper floors for offices. It will have a frontage on Namayo avenue of 33 feet, and its [illegible] will be 90 feet. In construction it will be of steel and brick, with Roman stone front.

Mutart & Co. have been awarded the contract for the brick and carpenter work, Lavelle & Ross the steel work, and Kemp & Son the plumbing.

C.P.R. TO START TENANT FARMING

JUDGE TAYLOR ON THE RIGHTS OF ROOMERS

Landlord Not Justified in Throwing out Roomer's Belongings When Tenancy Expires Without Giving the Roomer Notice.

An interesting case involving the question of the respective rights of roomers and landlords came up in the District court yesterday before Judge Taylor. Mrs. A. S. Carnegie who in August last year was the tenant of room No. 1 in the McLean block, sued Dr. J. Douglas McLean for the sum of $125. She claimed $25 for being deprived of her property and valued at that amount, and $100 for general damages.

Mrs. McLean had had the room a month and just before the month was up there was an interview between her and Dr. McLean with regard to the further tenancy. A day or two afterwards the month's tenancy expired and by Dr. McLean's orders the goods of the plaintiff were removed from the room, on the day after the month was up. Information was given to the police and Detective Simpson made enquiries and found that the gods had been stored in the basement. He informed the plaintiff of this.

Mr. Wright, of the firm of Byers and Wright, appeared for the plaintiff, while the defendant was represented by H. R. Milner, of the firm of Hyndman and Hyndman.

Mr. Milner submitted that the defendant had acted within his rights in doing as he did. He further stated that the plaintiff after she had engaged the rom had sublet it to someone else. He said it seemed to be a custom for people to engage rooms and then to sublet them without the landlord's knowledge.

Judge Taylor said the question was one of the rights of a person who leased premises. He was of the opinion that no landlord had the right to throw out a tenant's property without he had obtained an order of ejectment. He did not think it made any difference what the tenant did with the room unless there were stipulations in the agreement and in this case the agreement was merely a verbal one. He thought the defendant was not justified in removing the goods without notice to the plaintiff.

His honor said he would give judgment after he had considered the point of law.

NEGRO SPRINTER RE-INSTATED.

Army Howard Promises to Place Himself Under Coach's Direction.

London, June 28.—J. A. Howard, of Winnipeg, the negro member of the Canadian Olympic team, the announcement of whose dismissal on the charge of insubordination, was made by the team's coach, W. Knox, on Wednesday, was officially re-instated today.

J. G. Merrick, secretary of the Canadian committee, who accompanied the team, says that Howard became such a nuisance to the team that it was decided to send him back. Upon Howard's pleas to be reinstated and promising to place himself absolutely under the coach's orders and not to interfere with the other members of the team, it was decided to give him another chance.

The team leaves for Stockholm tomorrow.

NEW FIVE DOLLAR BILL.

Will be Issued to Public on Monday—Is Effective Design.

Ottawa, June 27—On Dominion day there will be issued the new five dollar Dominion bill. The new note has been prepared and considerable numbers are ready to be given to the public on Monday next. The new bill is a particularly fine piece of work. On the obverse side it has an extremely well executed Canadian scene, the Wentworth valley in Nova Scotia, with an Intercolonial train coming down the famous grade on the Folleigh mountain and on the reverse side the numeral represented by the bill is printed over and over again. It is a remarkably good specimen of paper, the denomination being evident at a glance and the scene depicted being at once beautiful, artistic and thoroughly Canadian.

French-Speaking Congress.

Quebec, June 27—With a brilliant concert at the drill hall this evening, the fourth day of the French speaking congress came to a close. During the day sectional meetings of the congress were held. Three sub-committees held assemblies, these being history, literature and propaganda. The sections met at the Laval university and Parliament buildings. The different sections were kept busy and many reports were considered. There were many interesting opinions rendered, among them one from M. Levesque, of Ontario, who suggested the foundation of an organ of the congress which would circulate among all friends of the work. Mlle. E. Dumas, of Holyoke, Mass., spoke on behalf of the feminine section of the St. Jean Baptiste society of the United States.

Government Suing for Expenses.

Halifax, N.S., June 27—T. S. Rogers, acting for the Dominion government, has caused writs to be served on the mayors of the towns of Glace Bay and D ominion in connection with claims for expenses of soldiers in that district during the strike. The amounts claimed are some $36,000 from Glace Bay and $3,045.35 from Dominion. The councils of both towns will instruct their solicitors to defend the suit. It is also understood that a writ will be served on Warden Lavake, claiming $10,000 expenses against Cape Breton county in the same connection.

Hon. Jacques Bureau Will Fight.

Ottawa, June 27—The Evening Journal says: "Hon. Jacques Bureau, former solicitor general, was in Ottawa today to confer with Sir Wilfrid Laurier in regard to the Three Rivers election protest. tI is understood that Mr. Bureau has practically decided to give up the seat which he carried at the general elections by a majority of three. Mr. Bureau says that if there is another contest he will again be the Liberal candidate and has no fear of the outcome."

EDMONTON DID NOT QUITE WIN

Another Tie Game Played—Each Team Had Four Runs.

In a good close game of baseball at Diamond Park last night Edmonton did not win, but they tied the score and almost pulled out a win. Each team got four runs.

Owing to the failure of Umpire Longenecker to arrive in the park, Dyre again officiated. His work was satisfactory, although he missed one or two in balls and strikes.

The locals played a nice game throughout. Calgary likewise had few misplays chalked against them.

For Edmonton, Ford twirled a beautiful game, allowing only six hits in the nine innings. He had a bad spell in the seventh, when three hits were got off him—a three-bagger, a two-bagger and a single.

Whisman and Povey were the big hitters for the locals, the former getting a two-bagger and a single, and the latter a three-bagger, a double and a single.

THE CORONIANS PROTEST GAME

Umps Sullivan Calls Game in Sixth with Hurleyites Leading by 5 to 4.

Calgary, June 28.—The teams from Red Deer and Bassano opened a three-game series here tonight at the new Hillhurst ball yard. The league leaders added a few more points by winning the game by the score of 5 to 4. Umpire Sullivan called the game at the end of the first half of the sixth, stating that it was called on account of darkness. It was plenty light enough to play two more innings at least, and Chesty Cox protested the game. It was a good game as far as it went and was watched by a big crowd of people who went out to see the new park. The box score is as follows:

KID SCALER TO MEET JIM POTTS

Scaler Making 133 Will Allow Potts to Make 138 at 3 O'clock.

Jimmy Potts, the Minneapolis boxer, will arrive in the city probably on Tuesday next week to start training for his bout with Kid Scaler. Potts is in excellent condition right now and by the time he has trained for a week or so locally will be in as good shape as he has ever been. Potts has been anticipating this bout for several months and has been training for it. The winner of the Potts-Scaler bout will be matched with Bayley later in the season, the bout probably taking place in Edmonton. Scaler makes the lightweight limit with ease and if he succeeds in beating Potts, as he expects, will be the toughest proposition Bayley can run up against in the dominion of Canada.

A MATCH THAT FAILED

It will be remembered that an effort was made by the Edmonton Athletic club to match Potts and Bayley last winter, but Bayley would not agree to meet him unless Potts made the lightweight limit. Potts was unable to do this. Now, if Scaler, who is giving Potts his own weight, can win in this match he will be a mighty tough proposition for the new champion to run up against.

ARRANGEMENTS ARE MADE

The arrangements for the Potts-Scaler bout have been completed. It will take place at Diamond Park on July 9. Potts will weigh in at 138 at 3 o'clock in the afternoon (his best weight) and Scaler will make the lightweight class. A stage will be built in the centre of the diamond and seats built up all around to accommodate several thousand people. Seats will be placed on sale immediately, and probably special trains will run from Calgary and Saskatoon.

Boston Still on the Climb

Boston, June 28.—The Red Sox won both games from New York, making 14 straight for the season, in a double-header this afternoon. The scores were 5 to 4 and 6 to 4. In the opening game, Bedient was knocked from the box, but his team won by a rally in the eighth inning. Three errors and a single during the first inning gave Boston a three run lead in the second game. Sterrett's home run in the fifth with two men on bases was the feature. Collins was taken out in the sixth and Bedient held the visitors hitless. Speaker passed the century mark on hitting today. His fielding and that of Maloney were features.

Did You Ever Ride in an Abbott-Detroit?

An Over-Abundance of Power—

Uncommon reliability, a beauty of exterior finish never before equalled at these prices, make the famous Abbott-Detroit "44" and the trim, tenacious Abbott-Detroit "30" of Bull Dog fame, the greatest values anywhere on the market today.

They have big, powerful motors and great hill-climbing ability, more than you will believe until you actually drive the cars yourself. They are economical and durable, and only the most select material has entered into their construction. Suitable for all conditions; roomy enough for their full complement of passengers to ride in comfort; powerful and speedy enough for all roads, not excepting strenuous mountainous travel; they are the embodiment of everything desirable in motor car construction. Their increase in popularity and their wide-spread distribution are indicative of the satisfaction which they have unfailingly given in the hands of all our owners. They are much superior to other cars sold at these prices.

Abbott-Detroit

Motor Cars Possess Unusual Value Not Apparent on the Surface

It is only after a careful inspection of the details that the great value of these cars becomes evident. The character of the material, the fine wormanship, the numerous refinements, the special metals and the thorough inspection and testing contribute many points of superiority which cannot be seen, but which nevertheless are present in these wonderful vehicles.

Roomy, Well Upholstered Bodies

There is an extra amount of room between the back of the front seats and the front of the back seats. Cushions are extra thick and the upholstering very luxurious. Excellent leather is used instead of the inferior grade, with which most cars are upholstered. The bodies are finished with twenty-four painting operations, from four to six more than are usually considered necessary.

Strong, Well-Designed Chassis

The chasses are strong and clean-cut. There is an absence of complicated parts. The entire power plants are enclosed and protected from dust. The springs are long and flexible, the fenders and running board well fitted and braced.

Electrically Lighted

The cars are lighted by electric systems using large capacity lighting batteries, latest type nickel enameled headlights, combination oil and electric side and tail lamps. The bodies have an inside control and are of the latest fore door ventilated pattern.

Other High-Grade Features

Other important features are genuine cellular tube radiators, full floating type rear axles of nickel steel construction, Timken roller bearings, imported Schafer Annular bearings, compact chrome nickel steel transmissions, heavy artillery wheels, large tires and demountable rims.

TWO HUNDRED HOMELESS.

Bad Fire Rages at Point Aux Tremble, With Very Little Insurance.

Point Aux Tremble, Que., June 28.—Damage estimated at between $75,000 and $100,000 was done by fire which broke out here late this afternoon and raged until eleven o'clock this evening. Fifty buildings, mostly residences and small stores, were destroyed and two hundred people are homeless. The insurance is very small. At one time it was feared that the entire village was doomed, as a high wind was blowing, but the early arrival of a section of the Montreal fire department and three fire tugs belonging to the harbor commissioners of Montreal finally checked the progress of the flames.

THE MILITIA PRESENT A FINE APPEARANCE

"March Past" Witnessed by Lieutenant Governor Bulyea—Banquet to Be Tendered Premier Sifton and Sir Richard McBride—Latter to Open Exhibition.

Calgary, June 28.—The most impressive ceremonial of the military camp was that of the march past Lieutenant Governor Bulyea at Reservoir Park this morning. The morning was an ideal one for the occasion and the men appeared right on their mettle.

Promptly at ten o'clock his honor and party arrived at the camp and immediately took up their position to the right of the saluting point, accompanied by General MacKenzie, Lieut. Col. Cruikshank, camp commandant, and officers of the staff. First in order came the cavalry regiments, next the 25th Battery, C.F.A., followed by the infantry, 17th Cavalry, field ambulance and corps of guides.

Banquet to Premiers.

Calgary, June 28.—Premier Sifton and Richard McBride, both of whom will be in Calgary tomorrow in attendance at the exhibition, will be tendered a banquet tomorrow afternoon at the Alberta Club by the members of the board of directors of the International Dry Farming congress.

Among those who will be present at the banquet are the Hon. Duncan Marshall, minister of agriculture for Alberta; the Hon. A. J. McLean, provincial secretary.

McBride to Open Fair.

Calgary, June 28.—Sir Richard McBride, premier of British Columbia, will officially open the Calgary industrial exhibition tomorrow. He will make a short address, which will be responded to by his honor, Lieut. Gov. Bulyea. The exhibition promises to be the most important in the history of the local association. Races will start Monday.

CADETS PREPARING FOR CALGARY CAMP

Great Excitement Prevails at Thought of Pleasant Outing in the South Next Week—Edmonton Contingent Will Number Between Three and Four Hundred.

Great excitement prevails among the cadets of the city at the prospect of going to camp. On the morning of July 2nd, 400 happy youngsters will entrain at the South Side depot for Calgary, where they hope to spend one of the pleasantest weeks of their youthful careers.

The cadet camp is the first of its kind to be held in the province and consequently there is a great deal of interest being shown in it. The camp will be held in Calgary after the militia comes home, from July 2nd to July 8th. The cadets will meet in the various schools at 7 a. m. on Tuesday July 2nd, and proceed by street car to the south side where they will entrain at nine o'clock for Calgary.

Col. Cruickshanks Commands

The camp is under the command of Col. Cruickshanks, D. O. C., No. 13, who will be assisted by practically the same staff which is now at the militia camp. There will probably be a section of field hospital at camp. There will also be signalling for the boys and a musketry program which will consist mostly of scouting, skirmishing and imaginary attacks upon concealed enemies.

Major Belson has secured the services of 18 experienced chefs and consequently an important part of the daily life of the boys will be well looked after. Citizens of Calgary are adding to the usual government rations by contributions of jam and other luxuries.

Preparations are being made daily for the trip to Calgary and the greatest enthusiasm is being displayed. Everybody from the commander down is working hard to make the camp a success.

Local Boys Well Cared For

The boys of Edmonton will be well looked after as far as medical attention goes. Dr. Dunn, medical inspector for the schools of the city, will accompany the scouts to Calgary. Dr. McQueen is also expected to spend a day or two at the camp while either J. W. Ward or one of his assistants will represent the Y. M. C. A. Capt. Harry Watt will act as quartermaster and Lieut. Baldwin as adjutant. The following public school principals will be in attendance: Major McGregor, Oliver; Principal Sapleton, Queens avenue; W. H. Pedley, Alex. Taylor; Principal Cowper and Mr. Drader, of Norwood; Principal Kennedy, McCauley and Supervisor Hughes. C. F. Flint will of course be present as instructor.

The Edmonton Contingent

Between 200 and 250 cadets from the north side and from 100 to 150 from the south side will make up the Edmonton contingent. It is expected that Greater Edmonton will have the strongest representation in the camp. A feature of the camp will be a half day spent at the Calgary fair when the cadets will be the guests of the Exhibition.

One afternoon will also be given over to an athletic meet when all kinds of athletic events will be indulged in. The Edmonton delegation will have several real champions and it is expected that many prizes will return to this city.

THREW CAUSTIC SODA IN DAUGHTER'S FACE

Winnipeg, June 28.—William Cahono, who was found guilty yesterday of throwing caustic soda in the face of his maried daughter, Mrs. Lilian Hoffman, was sentenced to two years today by Magistrate MacDonald.

BERLIN ARCHITECTS ANGRY WITH KAISER

Says Kaiser's Favored Edifices Are Like Slices of Ham—First Class Row Over New Opera House Design for the Capital.

Berlin, June 28—Berlin's architects are at war. They are writing articles and saying horrid things about one another, about Herr Minister of Public Works Breitenbach, and about Kaiser Wilhelm. The case is the unlucky proposed new Royal Opera House which scores of young imaginative architects want to build and which Kaiser Wilhelm and Minister Britenbach decide shall be built by an unimaginative, classical architect in an unimaginative, classical way.

Berlin's present opera house was build by Knobesdorff for Frederick the Great. It is a handsome, grimy, highly inconvenient death trap, decorated with statues and rusty fire-escapes. Kaiser Wilhelm always yearned for something showier and he has coaxed the promise of $7,000,000 out of the Lantag for the new opera house on the Koenigsplatz, opposite the Imperial Reichstag. Since that decision was taken no man interested in art, in architecture, as in painting, has had a moment's peace.

The Landtag voted $20,000 for designs and preparations and Kaiser Wilhelm said his say about the designs. In architecture, as in painting and music, Kaiser Wilhelm admits only the classical-academic; his hero is Earl Fredrich Schinkel. Schinkel built the Royal theatre, the Old Museum, and many othed Berlin buildings and started the neo-classical craze which lasted until 1870, when it was ousted by the neo-renaissance. The Royal theatre is undoubtedly a handsome building and Kaiser William and Herr Britenbach swore that the new opera house should be in its style. But Germany's young aspiring architects, who deride the classical and design only symbolical edifices with secessionist details and fat, nude women in stone, were very angry.

Minister Angers Them.

Herr Brietnbach made them angrier by not asking their counsel. He restricted the competition to six good academic professorial classicists, Littmann, Seeling, Ihne and so on; and he restricted these by telling them Kaiser Wilhelm's ideas. So all sent in designs as like as eight eggs. All were handsome and impressive; all had reliefs in the tympanums and all had temple-like superstructures. And as the competition was conducted in diplomatic secrecy, the young aspiring architects got more furious every day.

Herr Breitenbach decided to choose between Professor Littmann and Herr Ihne; but on afterthought, he allowed the official architect, Herr Grube, to compete, and finally gave him the job. To please Kaiser Wilhelm, certain pretty details from Littmann's drawing were incorporated in Grube's design. The young aspiring architects denounced this favoring of official Grube as graft, and they wrote more horrid things. Phrases like "Slavish limitation," "Kaiser-classicism," "ape-architecture," "Imperial-Schinkel-art," and "sneak-theatre-style" hurtled through the air.

New Competition.

Herr Breitenbach bent before the storm and to prove himself in the right caused all the designs to be exhibited. This made maters worse, for the young aspiring critics, backed by the newspapers, demanded that Herr Grube be sent about his business and that a new competition be announced free to all men. They pointed out that the Paris opera house was built by an unknown man who thereby made himself famous and they implied that they too, would make themselves famous if only they got a chance; if only the musty, fusty professional Kaiser-classicists were kicked downstairs. They have up their sleeves hundreds of incomparable theatre designs in the latest secessionist-symbolist-new-art-style.

While Herr Breitenbach and Kaiser Wilhelm were recovering from this shock, Professors Moehring and Rathenow chimed in. They say that Kaiser Wilhelms choice of the Koenigsplatz is ridiculous. The Koenigsplatz is entirely consecrated to military and political things, to the Reichstag, and statues of Bismarck, Moltke and Roon and the 1870 column of Victory. The opera house will be as inappropriate as the Beethoven statue outside the Ministry of War.

Meantime, the young aspiring architects are sharpening their wits. Not Schinkel-classicism they say, but "Schinken (ham)-classicism" is Kaiser Wilhelm's taste. For all the designs of buildings which Kaiser Wilhelm inspires are as like one another as two slices of ham. Art is a cranky, querulous business, in Germany at any rate.

Essex Beating the Australians.

London, June 28—In their match with the Australians Essex took their score to 421 before being dismissed. J. W. H. T. Douglas and H. Perrin completely mastered the Australian bowling, making 129 and 104, respectively. Fane failed by two of completing his 100, being dismissed after a splendid innings for 98. The Australians on going in this afternoon started off disastrously, four wickets being down with only 77 runs being registered.

No Miracle

Strange that so many people entertain the idea that anything will do in the way of glasses. Using improper or defective lenses, they imagine they see well, or if aware that their decision is below par, think it impossible to improve their sight.

We have many such persons fall into our hands, who almost imagine we have wrought a miracle, by simply placing a piece of glass before their eyes that entirely restores impaired or failing vision.

They have failed to get such vision before simply because they have never had their eyes scientifically examined or properly fitted.

Building Permits for June Already Have Established Record for City

So far from padding, at least as far as building permits are concerned, in this city of Edmonton, that an effort is actually made to keep the total value of the permits issued this month down lower than they might be.

A strange state of affairs in a west- ern city, but nevertheless true.

This is how it happens. Already this month the value of the permits issued at the building inspector's of- fice has reached the total of $2,407 [illegible]. This is a record for the city. As it is it is expected that the total for the month will be over two and a half million dollars. Now, if it were de- sired it is believed that by hurrying up a few people who are going to take out permits within the [illegible] [illegible] it would be possible to have [illegible] for the month at least three million dollars.

But the officials of the building in- spector's department are not [illegible] [illegible] the figures at [illegible] [illegible] [illegible] too much of a record [illegible]. They prefer to let the per- mits come in in the ordinary way [illegible] to suggest that a few big cases be left over until the first of next month. Some buildings, for which permits will be taken out in the next few days, are the new police station, the new car [illegible] and a school on the south side.

Two permits taken out yesterday afternoon totalled nearly $100,000. Both were for store and office build- ings. John C[illegible] is building a $[illegible] store, office and apartment house on the west side of Namayo avenue be- tween Clara and Elizabeth streets. The building will be four storeys high, and will have a frontage of 33 feet and a depth of 90 feet. Ernest Brown is the owner of the other [illegible]. The will be located on the north side of Jasper between Namayo and Kinistino avenues. It will cost $[illegible], is three storeys high and has a depth of [illegible] feet and a frontage of 33 feet.

Other permits issued were as fol- lows—

S. F. Mayer, two storey store, Jas- per east, between Queens and Fraser avenues, to cost $[illegible]

Hewlett and Bel, house, T[illegible] [illegible] street, $1,000

S. O. Moses, house, Sinclair street, $2,500

New Zealand's Legislative Program.

Wellington, June 27.—The legisla- tive program of the New Zealand government is on the whole much milder than Sir Joseph Ward's last program. The new program includes old-age pensions for women over six- ty, farmers co-operative banks, and important agricultural concessions. A preferential vote instead of the sec- ond ballot, military detention instead of prison for offenders under the de- fense act, anti-trust legislation, reci- procity with Australia, and a state- owned cable between New Zealand and the other Dominions if Great Britain refuses to co-operate.

Madam—

ever light candles with dollar bills ?

La Diva NON-RUSTABLE CORSET — MADE IN CANADA

Yet buying an American or other impord Corset instead of a "La Diva" or "D & A"s like lighting a candle with a Dollar bill. Ov the dollar instead of going to ashes, goes the government as customs dues.

Prove this by asking your dealer to show you a D & A or a La Diva at $2.50 and any American or other imported corset at $3.50.

Compare the material, the finish, the style.

We, as experts and manufacturers know that point for point our product will at least equal the imported article costing you $3.50.

The reason is that when retailers buy a D & A or a La Diva they pay only the cost of manufacturing plus a legitimate profit, whereas on the imported corset 35% duty is levied.

The duty adds nothing to wearing quality or style but does add one dollar to the price.

We are proud to state that under the British Flag or in the United States there is no finer, no better equipped corset factory than ours, nor is there a more efficient and better trained staff of corset workers anywhere in the world.

The steady growth of our business, shows that Canadian Women appreciate the quality price of D & A and Diva Corsets, as our fact is by far the largest co factory in Canada.

If you have no money burn, examine the D & and the La Diva Corse and unless you are swaye by prejudice you will n favor the imported corse

D & A and La Diva Corsets are sold by up-to-date stores throughout Canada.

D & A Corsets $1.00 to $3.50.

FIRST BALLOT FOR NOMINATION SHOWS CLARK IN THE LEAD

Champ Clark Received 440½ Votes for Democratic Presidential Nomination.

WILSON RECEIVES 324; JUSTIN HARMON 148

Vote Was as Expected, No Candidate Receiving Sufficient Votes to Nominate.

Baltimore, June 28—As was expected, Speaker Champ Clark led all of the other candidates on the first ballot for the presidential nomination at the Democratic convention. He received 440 1-2 votes to 324 for Woodrow Wilson, his nearest rival. This, however, left the speaker 286 1-2 votes short of the necessary two-thirds. Governor Harmon, of Ohio, aided by New York's solid block of 90 votes, was third with 148. Representative Oscar W. Underwood, of Alabama, received 117 1-2 votes.

William J. Bryan, of Nebraska got one vote from the Ohio delegation. Some of his friends had expected that he would receive more scattering votes, but the fact that he did not show any strength whatever on the first ballot, did not discourage them. They still felt that in the event of a deadlock, which early today seemed more than probable Mr. Bryan might be turned to again lead his party in the presidential race.

Less Than He Expected.

Speaker Clark's vote was less than his managers had been claiming for him, but was about what the other candidates had conceded. The speaker's adherents were confident that he would steadily gain as the balloting in the convention progressed, and at the same time they were busy with their delegates to see that there were no defections.

The Wilson people, on the other hand, made claims that now that the various instructed delegates had cast their votes on the first ballot, in accordance with these instructions they would be free later on to switch to a second choice. They hoped to gain greatly in these changes.

It had been known for weeks that because of the great number of candidates and "favorite sons" in the fight for the nomination that a selection on the first ballot was out of the question. The ballot this morning bore out the expectations. It was because the delegates knew the situation was complex that they patiently sat through listening to many weary hours of oratory and then agreed to test the vote before recessing for sleep and conferences prior to renewing the struggle. Everyone wanted to know how matters stood and the roll call gave a definite idea of the preliminary line-up.

New York's Ninety Votes.

The big doubtful quantity in it was New York. That delegation, at a caucus last night, decided to give its 90 votes to Governor Harmon on the first [illegible] thrown at any time to Clark [illegible] some other candidate.

In addition to the renewed talk of probability of Bryan's nomination there was renewed talk of dark horses. [illegible] of the delegates, however seemed content to let the fighting run along in the convention through six or seven [illegible] before trying to [illegible] with the opposing forces.

No Chance Of Stampede.

There seemed [illegible] to be [illegible] chance of a stampede. Any attempt to nominate Mr. Bryan would meet with stubborn resistance from some of the southern states instructed for Underwood, and held subject to his release and from the Conservative element including possibly some of the so-called Clark states.

Picturesque Session.

The all-night session of the convention was picturesque in many ways. In all there were about eight hours of oratory and demonstration. As a whole the delegates listened patiently to the somewhat lengthy nominating speeches seeming to realize that this oratory had to be treated before the serious business of voting was begun. After day had broken and the artificial lights in the big armory were giving way before the gray shafts streaming through the windows, the pangs of hunger, and the fatigue of the long sitting grew on them, and they began to call on the speakers to make what they had to say as brief as possible. The [illegible] among the scheduled orators heeded this advice. Others, who attempted to make the eagle scream and the flag wave in wordy pictures, were treated with scant courtesy. It was 6.45 a.m. when the last state was called and the last speech had been made. Inside the auditorium only a single line of arc lights gleamed, where there had been a score before. Outside the light of day filtered its way through a heavy veil of clouds, but the clouds were no heavier than the eyes of the delegates and they greeted the beginning of the first roll call with a whoop.

Vote Taken Rapidly.

The test vote was carried on with great rapidity, and there was little or no confusion. The galleries were not forsaken. Strangely enough the women seemed to out-number the men among the spectators who had spent the night at the hall, and were also much more keenly alert to the proceedings. Two or three of them had collapsed into sound slumber. Men were asleep and snoring in groups. It required half an hour to call the roll and figure the results. Then came the motion to recess and it was carried despite the throaty-voiced protests of some delegates who were ready to go on with the balloting to the bitter end. The session over, the big hall was emptied in a few minutes.

Speculation as to Deadlock.

Chief speculation during the early hours today centered on the length of the convention, and its ability to avoid a deadlock in the session beginning at 4 o'clock this afternoon, and after that of course, on who would be the nominee.

It was expected that a number of caucuses would be held, but these could not well begin until afternoon, as most of the leaders were in bed after the all-night session.

Chairman Ollie James reiterated the view that there would be no deadlock, and that the standard bearer would be chosen without another all-night session. The chairman was little the worse for his arduous duties. His voice was holding out well and his sturdy physique was serving him well in his efforts to keep the convention moving steadily forward. It was not expected the platform would be reached until late this evening, and possibly not until tomorrow although the draft will be ready for presentation before that time.

Starting Point of Guessing.

The ballot of the early morning was taken as the starting point for all speculation as who would be the candidate. All eyes were centered on New York, Illinois and Indiana, with their large aggregate of votes. The feeling was general that the nominee of the convention is assured of practically a solid south next November and all energies were being bent to add to this conceded southern strength the additional strength of the pivotal northern states, notably New York, Illinois and Indiana, which would combine enough electoral votes from the north and south to secure a victory.

Was Complimentary Vote.

Messrs. Murphy, Sullivan and Taggart, the three leaders of these northern states, have been in constant consultation and have been working in harmony as the lines have been formed, and they will go over the situation before the ballotting is resumed this afternoon. The New York delegation has an element of about one-third of its strength favorable to Wilson, but the predominant element of about sixty votes is for any one who has reasonable assurance of carrying New York. Thus far the New York delegation has reached this stage. At the caucus yesterday, they agreed on a complimentary vote for Harmon. They may follow this with a complimentary vote for Gaynor, and they probably will continue these complimentary votes until they can see more definitely their way to make the large vote of the Empire state most effective. A Tammany caucus will be held at 3 o'clock today and the Harmon leaders will go into conference about the same time.

Bryan Has No Comment.

Wm. J. Bryan had no word to say today on the first ballot cast for the presidential nomination, and after the adjournment of the all-night session the Nebraskan hurried to his hotel, where he retired for a rest. He indicated that the delegates had already spoken their minds against Underwood and Harmon, but was non-committal as to whether his choice was Clark or Wilson, although he added that he had voted for Clark.

Mr. Bryan believes that he achieved a great moral victory in procuring the passage of his Morgan-Ryan-Belmont resolution and which was hurled in to the convention like a bombshell last night. Over the breakfast table Mr. Bryan talked freely of the resolution.

Times Denounces Bryan.

New York, June 2.8—The Times this morning says: "After showing its contempt for W. J. Bryan, by adopting one-half of the impudent resolutions he introduced, the Baltimore convention should have adopted unanimously another resolution thanking him for the expression of black-hearted malice and treachery that forever destroys his standing in the party and so rids itself of the man who has been its scourge and its curse for sixteen years.

"Mr. Bryant has been for months scheming and contriving to get the nomination for himself. He went to Baltimore with that purpose and in that hope. He can now go over to Mr. Roosevelt or to anybody else without measurable injury to the prospects of the party in the campaign, and to the very great and very real benefit of the Democracy. If Mr. Bryan, however, should be received in that camp, he would come into immediate and beneficial relation with the very Wall Street interests, represented by Mr. Perkins, whom he denounced in his resolution.

Woodrow Wilson a Big Man.

"Whatever de may do, the party is rid of him. It is now confidently expected that Governor Woodrow Wilson will be nominated for President, probably on the second ballot. Governor Wilson's fitness for the office in respect to character, training and equipment is everywhere recognized. He has elements of strength that could hardly be asserted of other candidates for the nomination, and the delegates who in this convention have been under the control of no boss, no faction or interest have evidently come to that conclusion under the sole guidance of their own judgment and their own will.

"It was believed last night that the nomination for vice-president would go to Mr. Underwood. This would be a ticket to command the confidence of the country and the vote of every Democrat and of multitudes of Republican voters, men who believe that the Republican lease of power should be terminated, and the regenerated Democracy entrusted with the chief executive offices.

Underwood and Tariff Reduction.

"Mr. Wilson's name will give great strength to the ticket by reason of his broad qualities of statesmanship. Mr. Underwood, who has gained a high reputation by his distinguished service in the House of Representatives, and as chairman of the ways and means committee, will embody, as no other Democrat can, the issue of tariff reduction. While at the present hour of writing it cannot, of course, be positively determined that these will be the nominations made, it is our belief that these are the strongest candidates the convention could name."

TRAVERS DEFIES THE COURT IN TORONTO.

Toronto, June 28—"I am prepared to take the consequences," remarked W. R. Travers at the close of this morning's session of the Farmers' bank enquiry, when he was pressed to tell to whom the mysterious $5,000 cheque went. "You may change your mind when you are taken into custody," dryly commented Sir William Meredith, who hinted that Mr. Travers might be kept in custody till the question was answered.

Mr. Travers refused the suggestion that it would be well to have his counsel present to advise him on the point. "I have given my word of honor not to disclose anything," he declared.

to keep Jack Frost at distance with the "Sun " Furnace. He may n and rave outside, but e is no place for him with- because, the Understudy he Sun has demonstrated astery in the home.

The average furnace is a glutton for coal—it literally burns up money. The "Sunshine" Furnace saves money—earns its cost in a very few years because it burns coal sparingly. Call on the McClary agent of your locality and ask him to prove that statement true. If he cannot convince you—show you that the "Sunshine" Furnace will cut your coal bills by a very pleasing margin we don't want your order. That's the fairest way we know of doing business—does it appeal to you?

There are a multitude of reasons why the "Sunshine" Furnace does save fuel—reduce coal bills—reasons that will be printed in the following advertisements. Here is one that should make you call on the McClary agent at once—the "Sunshine" Furnace has four radiating surfaces—surfaces that gather up the heat greedily and diffuse it liberally all over the house.

But—you just call on the McClary agent and ask to be shown. If you do not know him write us at our nearest address and we'll tell you.

You certainly owe it to yourself to find out why McClary's "Sunshine" Furnace is called the "Understudy of the Sun."

MANITOBA TELEPHONE COMMISSION RESIGNS

Chairman and Commercial Manager and Accountant Manager All Have Tendered Their Resignations—Premier Roblin Says this Will Mean Re-organization of System.

Winnipeg, June 28—Chairman F. C. [illegible] Commercial Manager W. H. Hayes, of the Manitoba telephone commission, have presented their resignations to the government. The present week will be the last of their joint tenure of office, the resignations taking effect on Monday. The accountant manager of the department, H. J. Horan, resigned from his post some weeks ago, when the special commission was engaged in its work of investigation.

The formal announcement of the resignation was made by the premier yesterday afternoon.

Interviewed at the government building Premier Roblin said: "The chairman and other members of the [illegible] have tendered [illegible] to take effect [illegible] rest. This naturally involves a reorganization of the management and system. This will be proceeded with as quickly as possible and we believe to the satisfaction of all telephone users as well as the public generally."

PROGRESS OF CITIES IN WEST IS AMAZING

Chief Superintendent of Mails for Dominion, Returns to Toronto After Tour Through West to the Coast—Says There is Substantial Growth Everywhere.

Toronto, June 28—Mr. Geo. Ross, chief superintendent of mails for the Dominion of Canada, has returned to Toronto after a trip to the west coast. In reply to questions concerning the growth of business in the west generally, Mr. Ross said:—

"There is substantial growth everywhere and everybody is optimistic regarding the future. The progress of some of the western cities is amazing and the postal department charts the success of these places."

HAD MORTGAGE ON 12 NORTH INGLEWOOD LOTS

Loaned $1,100 in Chicago Last September on Edmonton Property Which is Now Worth $15,000 to $20,000—Application for Right to Foreclose.

One thousand, one hundred and nine dollars was claimed by John C. Waters in Supreme Court yesterday from Katherine T. Campbell and Francois W. Sleright. The sum claimed represented principal and interest due on a promissory note dated Chicago, Sept. 9, 1911, and made payable at Edmonton. Payment of the note had been demanded but was not met. Plaintiff was in possession of a mortgage on lots one to twelve, inclusive, in block 29, North Inglewood, which was given as security for the loan on Sept. 9th, 1911. In default of payment of the sum claimed the plaintiff Waters asked for the foreclosure on and possession of the Inglewood lots.

Since the mortgage was given the property mortgaged has largely increased in value, being worth at the present time probably $15,000 to $20,000.

FRENCH CANADIANS IN WESTERN CANADA

Need for Closer Organization Among French-Canadians in West is Pointed Out at French-Speaking Convention.

Quebec, June 28—Two resolutions were adopted in committee today at the congress for encouraging the speaking of French with which is closely united in the minds of all the delegates, the maintenance of the Catholic faith among French-Canadians in sections of the country where they are in the minority. It is this feature of the congress which stands out before all others, and which also explains the enthusiasm with which the members recommend its place in the schools. Among the group of resolutions adopted today which will be presented to the general assembly of the convention tomorrow is one in favor of the formation of a general committee which is described as the court of system for the guidance of the different branches in the fight for their rights, while the second resolution is for the formation of a closer union than now exists among all the French Canadian and national organizations both of the United States and Canada.

Better Organization.

Delegates from the Canadian west and from New England as well as from Ontario, pointed out the necessity of having a better organization than now existed and when that were completed the real work of the congress [illegible] launched.

Mgr. Mathieu, bishop of Regina, was the [illegible] that French Canadians who wanted to leave home should direct their steps to Manitoba and the Northwest and take [illegible] domain [illegible]. The [illegible] that French Canadians should be directed to the northwest, and Bishop Mathieu added that not only that, but they should be advised to group themselves together so as to be organized easily in parishes. That was one thing too long neglected in the east and as a result the formation of French Canadian parishes had become difficult. On the other hand when the native of Quebec province was left isolated he suffered by adopting too readily the ways of the English Canadians.

Prosperity in the West.

"We should," said the bishop of Regina, "preserve the province of Quebec in its full strength as the stronger it is the stronger will be the influence felt in other French centers of the Dominion. Let Quebec then keep her children at home, but those who must migrate let them go to the Canadian Northwest and let them group themselves together. If we had done that thirty years ago rather than let our people go to the United States, what a powerful French element we should have had in Western Canada today. There is room for all and I know of farmers who were poor five years ago who are now seigneurs."

Mgr. Mathieu also asked to have religieuses sent out to the west, where they could do as much good among their own people as by going to China.

The bishop also asked for school teachers and physicians remarking that he had an opening for a doctor with an income of $2,000 for the first year. The bishop also showed the close tie existing between the French tongue and the Catholic religion and if the faith was to be guarded so must be the language which expressed that faith.

The Tudhope
"The Car Ahead"

This Car is Guaranteed for Two Years

IF we did not know every pound of steel that goes into Tudhope Cars; if we did not make every part of our motors, and running parts; if we did not machine them, and grind them to the most exacting specifications in our own shops; we could not issue the liberal guarantee that goes with Tudhope Cars.

That guarantee is our assurance to the Tudhope owner that we have used the utmost care in building his car. It says that experienced men have watched every piece of material, as it passed through each process of milling, grinding, and polishing until, leaving our manufacturing department, it was ready to be assembled into the Tudhope Chassis.

Visitors to the Tudhope factory are surprised to see that we manufacture our own motors. Boring the heavy motor castings is a most important operation and one we feel we must do in our own shops. To ensure absolute alignment of the cylinders we bore them at one operation. We could buy these castings already drilled and ground but if we did, we could not deliver a car as well balanced or as dependable as the Tudhope. We would not have absolute control over the construction. We could not avoid the possibility of variation in size nor the use of inferior material—we could not GUARANTEE IT FOR TWO YEARS.

To be sure of a finish that will last through sun and rain, we build and finish our car bodies in our own factory. We also do the nickel-plating on all the metal parts, so that we can watch and inspect them and know that they will not wear off quickly in service.

In those parts, such as the magneto, tires, lamps, rims, etc., which we do not make, we use the very highest type obtainable. This anyone can verify by comparing Tudhope equipment with that of high-priced cars. The Bosch Dual High-Tension Ignition is the best system we know. Continental Demountable Rims—Truffault-Hartford Shock Absorbers—Gray & Davis Lamps—Stewart Magnetic Speedometers are not found on any but the best cars.

While it may not seem rble to mention this little baby in the same breath with Londo Liverpool, still it is ready to and if indications work out fav, it is ready to take its place important cities in good time. bamun is situated upon the eastremity of Looking-glass Lakeh is a beautiful body of water miles long by seven broad.

It has the most entr features for a summer resorthough only an infant yet (thiss only the second summer with ar train service), the summer qu is already a settled feature, around the lake are to be seen summer homes of the wealthy, we eager to get away from the stion of the larger centres, bacl nature, where the air is laden health-giving principles, whe eye meets with the beautie nature, where the song birds en the air, where the nerve-straineer-worked city toiler may deprom the sweltering office heat alax and live the natural life unt regains health and vigor.

The distance (forty west of Edmonton) makes it wian hour's travel from Edmonton within easy reach of Calgary, itoon and intermediate points. Soular has this place become thaeady the G. T. P. run two excu trains a week. There is no reawhy in a few years they should n several trains daily, as they don Winnipeg to Winnipeg beach

Economically, Wabanhas right at her doors one of tost staple commodities the worldws today—coal. Some places Wetaskiwin, Red Deer, Saska Brandon and others have exalthemselves to notable places, ha only two features upon which work, viz., push and agriculture.

Wabamun has magnt agricultural facilities and mine farms. As for push, let the der be our judge. These are her r qualities.

Coal exists within le of the town. The veins are uated that it can be mined at a vtrivial cost. Its quality is unexcelfor a heating purpose. In qu, there is probably more coal thwill ever be mined. Several largepanies are looking after this are of the place.

Another vast possih is the manufacture of coal tar vatives, and it is whispered aboutt a million dollar plant will be alled here at an early date for thstraction of these chemicals frone raw material.

The lake abounds fish. Great sport is had by pleasure seekers in the early spring by snaring the jackfish. Later on in the season spearing comes into vogue. All the year around great catches are made by the troal: Whitefish are very plentiful, and a fishery exists which ships out tons of fish to all the neighboring cities.

As far as military matters go, Wabamun is now the headquarters of the Alberta Dragoons. It is rumored that the government intend to build an elaborate armory at this point, and some even go so far as to say that ultimately there will be a surrender of the St. Paul's Reserve to the war department, where a vast "Petewawa" will be established.

The town also has its agricultural society, and already the society is getting "busy" about the annual fair day.

J. H. Robson, of the Young-Thomas Soap company, spent the week-end at the lake fishing.

Mr. Bell, of the Security Coal Mines Company, Ltd., was in town on mining business.

Mr. Mohan was out to investigate the place with a view to opening a jewelry store.

Messrs. H. H. Richards and H. H. Rendall spent the week-end at Mr. Richards' summer home. Mr. Richards brought out his new launch this week, which is the fastest boat on the lake, being capable of doing 25 miles an hour.

T. McNamara, J. York and lady friends came out for the week-end in their car.

F. Goode was out on Saturday. He brought out a splendid boat made of Detroit steel. This is said to be the best boat on Lake Wabamun.

W. S. Clay, wife and family are the guests of T. H. Lahone.

Mr. McGoon and family are out for the summer.

Mr. Gould is likewise out for the summer.

S. W. Eakins, of Lake View, was the guest of W. Taylor for the week-end.

Dr. Carthew, of Edmonton, was in town over Saturday.

J. F. Erskine spent the week-end on the lake.

Harry Rainsford, manager of the Dominion Bank, spent the week-end the guest of H. H. Richards, manager of the Royal Bank, at the latter's cottage home on Lake Wabamun.

Alan Fraser, manager of the Merchants Bank, autoed out to spend the week-end with his family at the lake.

Mr. and Mrs. Biggs came out for the week-end.

Alex. McCorrister is doing good work in the water front, under the management of the Wabamun Local Improvement company.

Mrs. C. W. Taylor was in Edmonton the latter part of the week visiting friends.

The Alberta Dragoons, who are now in camp at Calgary, are expected home in a few days.

Mr. Hasson, of Rexboro, spent a few days in Edmonton in connection with the fitting up of his launch.

G. E. Dixon is putting up a big restaurant on First avenue, facing the lake. He expects to have it ready for the Dominion Day excursions.

The new ice cream parlor at the drug store did a thriving business with the Saturday excursionists.

Wabamun's population is increasing, Madame Stork having left baby boys with Alf Root, contractor, and Jens Hellem, blacksmith, and a daughter to the home of Arthur Hopking.

Mr. Alex. Menard, of Millet, was the guest of Dr. Anderson last week. He was looking over the town for a business opening.

Mr. McNamara's cottage on the point is nearing completion.

The Baldwin Bros., of Edmonton, autoed out with friends to spend the week-end around the lake.

The mother and sister of A. W. and J. H. Johnston came out in their handsome new car to spend Sunday.

Mr. McCullough, proprietor of the King Edward hotel, ran out with a party of friends to spend the day on the lake.

Tourists report the roads from the city to Wabamun in excellent shape.

The local baseball team have ordered a complete outfit with which to show their prowess. They have a snappy bunch of fellows on their team.

G. Hare, of the Brown Trust company spent the week-end with Mr. Taylor.

E. W. Hammond, wife and children, with the Chandler and Fisher people of Winnipeg, are spending a short vacation on the lake.

J. J. Shearer, V.S., was called to Wabamun on business last week.

A prospecting outfit consisting of about a dozen men are scouring the northeast quarter of Wabamun township for coal. An Edmonton company have the option on the land.

Messrs. Postill, Sturtridge, Graham, Cooper, Richardson, Knight, Skinfield and Kelcher have slung their tents on Wabamun beach for a short vacation.

Contracts have been let for the building of four new summer homes at the beach.

The topics disturbing the localities are: Who will be the first mayor and who will get a license for the new hotel?

Owing to the congestion of this place during week-ends Mr. Dixon has leased the auditorium over the Wabamun Trading company's store and will transform this into sleeping apartments.

It is understood that the official photographer of the G. T. P. spent several days in and about Wabamun making pictures to advertise this famous looking-glass sheet of water. H. H. Richards acted as guide, and pointed out the beauties of the lake in an able manner.

A new barber shop has been opened in connection with the pool room.

Mr. Laight expects to build an addition to his place.

The contract has been let to move C. H. Dunn's building to First avenue. This will be greatly improved and opened to the use of the travelling public.

AROUND THE CITY

LOCAL

South Side Lawn Social.

Mrs. Hugh Duncan is holding a lawn tea at her residence on the South Side, corner of Fourth avenue west and Main street north, on Saturday afternoon and evening under the auspices of the Ladies Aid of Knox church. The proceeds will be for the organ fund.

Better Band Stands in Parks.

City Architect Jeffers and Parks Superintendent von Aueberg have been instructed by the city commissioners to prepare plans for better band stands in the parks. Those at present are not protected very well from the sun and their acoustic properties are bad. The matter was called to the attention of the commissioners by a letter from the leader of the Citizens band.

Waste Paper Recepticales.

Tin receptacles for waste paper have been placed by the street superintendent at thee orners of several downtown streets. The paper scattering public is expected to make good use of these preservers of the tidiness of the streets.

The extension of the sewer on Second avenue north between Fifth and Sixth streets east has been recommended by the city engineer and will be authorized by the commissioners.

Superintendent Brighton of the stores and works department has been authorized to select a suitable site for a store yard on the south side of the river.

BOY SCOUTS AT WESTMINSTER.

The boy scouts of Westminster church are expected to be present in uniform at the patriotic services to be held on Sunday at 10.45 and 2.45. The members of the Sunday Bible school are also expected to be present at the morning service. Special programs are being arranged for both meetings. A neat button-hole flag will be presented to every member of the school as a souvenir of the day.

SOLICITOR DISAPPROVED SALE.

The action brought by W. F. Brown against James Wellman, in the Supreme court Thursday before Mr. Justice Beck, claiming specific performance in a real estate transaction, was dismissed. A stay of judgment for 20 days, asked for by H. H. Parlee for the plaintiff, was granted.

Defendant Wellman, it was alleged, had sold to plaintiff on May 2nd last, the north half of College park subdivision for $49,200, payable $5,000 down, $5,000 in ninety days and the balance in six, twelve and eighteen months. The defence was that the sale was subject to the approval of the defendant's attorney, Mr. Boyton, who did not approve the proposed sale on the ground that the cash payment was too small, and the plaintiff was immediately notified of the fact that defendant would not complete the agreement, and thereupon returned the check for $5,000 to the plaintiff.

CAMP AT COOKING LAKE.

A good number of delegates are already enrolled and are planning to attend the summer school and camp at Cooking Lake. Mr. A. E. Hayes, the school registrar and sports manager, is hard at work making arrangements for the "good time" side of the camp life. The afternoons will not lack for want of good sport if he can help it. Presbyterian delegates will also be glad to know that the Rev. E. McDougan, of Knox church, South Side, and the Rev. R. E. Stewart of Robertson church, have been secured for two short study classes.

BUNCH OF AUTOISTS FINED.

Quite a bunch of autoists appeared at the police court yesterday charged with speeding. The cases have been rather less numerous of late and autoists seemed to have been lulled to a false sense of security. Two officers, however, were keenly on the lookout yesterday, and this morning there were eight autoists' names on the police docket. The following fines were imposed: A. Violet, Robert Lendrum, Hotel Capitol; S. H. Rosewell, 1125 Fourth street; C. Lyons, 633 First street; Jack Friedman, 118 Syndicate avenue; M. Dennis, 60 College avenue, each $15 and costs. T. R. Tipton, 24 Whyte avenue, $35 and costs.

The city police are also strictly enforcing the traffic rule that on main streets drivers of vehicles must not turn round between intersections. There is a temptation for drivers to turn round just wherever they happen to be on the road. If they are not caught they may save about half a minute, but if a policeman happens to be in the vicinity it means an appearance in the police court. Two teamsters, G. Fisher and Ernest Stevenson, were each fined $1 and costs at the city police court this morning for this offense, while Joe Masters, who did the same thing with an auto, was fined $5 and costs. The danger to traffic from this practice is very considerable and the rule will be strictly enforced all along the line.

Philip H. Ryne and John Dooley were each fined $5 and costs for creating a disturbance by fighting at the corner of Rice and Fraser yesterday.

Frank Park, charged with having stolen a valuable dog, was handed over to the superintendent of neglected children's department.

AUTOS FOR VARIOUS CIVIC DEPARTMENTS

Commissioners Approve Purchase Of Cars For Stores and Works, and Waterworks Superintendents, and Two Motor Cycles For Building Inspectors.

Many and frisky will be the auto cars in the service of the city, in present plans are carried out and all requests from department heads are granted. But there's a reason.

"I think we should equip all the departments with autos and motor cycles, right up to date," Commissioner Harrison remarked yesterday.

"And, time, or rather the saving of time, is the great thing needed in the city's work now," added Commissioner Chalmers.

Three or four applications for gasoline speeders were received by the commissioners yesterday and favorably considered.

The first came from Supt. Brighton, of the stores and works department. Mr. Brighton asked for a five passenger car. He showed how and why it was needed. This department already has a light motor truck for carrying goods. The new car will be used for carrying men. Then came a request from Inspector McIvor, of the building inspection department. Owing to the wide district that has to be covered and the tremendous amount of building that is going on in the city this season, Mr. McIvor points out that it is an absolute necessity that the inspectors be given some means of rapid locomotion. He suggested two motor cycles. The request will be granted.

Then the commissioners authorized a check for $1,900 for an Overland five passenger car for Superintendent McLean of the waterworks department.

Besides these new cars, departments in the city that are already supplied with motors of various descriptions are the commissioners, police, fire, electric light, stores and works, and one owned by the medical health officer himself which he uses in the work of his department.

BRITISH VISITORS IN THE CITY YESTERDAY

Manufacturers Representing Industries in Great Britain Capitalized at $200,000,000 Are Guests of the Board of Trade in Viewing City and at Luncheon at Corona Hotel.

The party of British manufacturers, touring the west and who representing a total incorporated capital of over $200,000,000, arrived in the city yesterday shortly after ten o'clock from Saskatoon over the Canadian Northern railway. There were about fifty in the party. Most of these are men whose names are well known in the business world of the old country, a few are young men and half a dozen ladies are with the party.

Members of the board of trade were at the station to greet the city's distinguished visitors. Many were taken for a ride about the city for an hour or two, and then came the formal recaptain at one o'clock in the afternoon in the shape of a luncheon at the Corona hotel. Fully two hundred took places at the tables.

H. Milton Martin, president of the board of trade, sat at the head of the table with W. Leonard Palmer, of the Financial News, London, at his right, and other members of the delegation with him.

In proposing the health of the visitors, Mr. Martin assured the guests of the honor that Edmonton felt in entertaining them. They were guests of what would be the biggest city in the West within a very few years. He hoped that this trip through the Canadian West would result in a broader view and a stronger love for this new empire.

Mr. Baliss, Mr. Davis and Mr. Palmer all responded to the toast. Mr. Baliss was quite certain every member of the party was very much impressed with the West. Everything was wonderful. Even the storm that the train passed through last night on its way up from Saskatoon was the finest he had ever seen.

"One thing that we in the Old Country cannot understand," declared Mr. Davies, "is the wonderful growth of these Western cities. They spring up in a day."

He expressed the strong attachment that Englishmen have for the Dominion. There were great fields for manufacturers here, and it was to find the best spots in which to locate factories, that the trip was being made.

"We want to share in your great development," he said.

W. Leonard Palmer, who was here a year ago, mentioned the wonderful changes even in that short time. He saw Canada as the greatest manufacturing country in the world in a few years. Already there was $2,000,000,000 of British money invested in Canada and he was sure this trip would result in many more thousands of English pounds coming to Canada.

M. S. Booth, on behalf of the board of trade, and Ald. Lundy, for the city, spoke words of welcome to the delegates.

Immediately after the luncheon, most of the visitors joined citizens in an auto trip through the surrounding country.

FELL FROM HOUSE IN MIRROR.

Yesterday a man named Allwell came in on the 11:20 G.T.P. train from Mirror, Alta., on the Calgary branch of the line. While working on a house in Mirror the man fell, injuring his thigh—in all probability a fracture. The man was immediately taken to the General Hospital by Connelly & McKinley's ambulance. Medical atention was immediately secured, and an X-ray will be taken this afternoon.

Double Amount of Wheat in Storage.

Ottawa, June 28—On June 21st there were, according to figures received by the department of trade and commerce, 9,598,461 bushels of wheat stored in terminal and eastern elevators, as compared with 4,617,056 bushels in storage at the same period last year. Other grains in storage totalled 5,322,114 bushels as against 5,073,297 last year.

"That is a fine Toothpaste all right.
"Pleasant, cooling, refreshing flavor that banishes all that early morning taste.
"Leaves the mouth clean and sweet.
"I am glad I bought Nyal's.

Nyal's TOOTH PASTE KEEPS THE TEETH BRIGHT

"Yesterday I was afraid that the drug clerk was a little enthusiastic and that he was praising it too highly.

"But the goods back up his words. It is sure a splendid toothpaste.

"He told me that there are over a hundred different Nyal Remedies. That they were made by a sturdy, old time firm that always had and always would stand for high quality.

"Guess I'll get a bottle to-day of that Nyal's Liver Salt he was showing me. Any medicine I buy will be Nyal's in future." 115
